OPEN-ENDED WORKING GROUP OF THE BASEL
CONVENTION ON THE CONTROL OF
TRANSBOUNDARY MOVEMENTS OF
HAZARDOUS WASTES AND
THEIR DISPOSAL

First session
Geneva, 28 April to 2 May 2003

Item 5 (c) of the provisional agenda*

ANNEX IX TO THE BASEL CONVENTION

Responses provided by Parties received after 20 February 2003 deadline

Enclosed are responses provided by Parties received after 20 February 2003 on the questionnaire concerning the national classification and control procedures for the import of wastes contained in Annex IX (List B wastes).

* UNEP/CHW/OEWG/1/1

For reasons of economy, this document is printed in a limited number. Delegates are kindly requested to bring their copies to meetings and not to request additional copies.

Table of contents

Austria	3-32

Spain	71-77
Switzerland	78-96
Turkey	97-101

Questionnaire

Cover sheet - general information:

-> Please fill in the following:

Country: Austria	Address: Federal Ministry of Agriculture, Forestry, Environment and Water Management Division VI/4 Stubenbastei 5 A-1010, Vienna Austria
Contact person: Andreas Moser (Focal Point)	Remarks see text annexed to the questionnaire
Telephone no: +43 1 51522 3521	E-mail: fp.basel@bmlfuw.gv.at or andreas.moser@bmlfuw.gv.at
Fax no: +43 1 51522 3003	Date when questionnaire completed D/M/Y: 26/02/2003

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1	Metal and metal-bearing waste					
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - precious metals (gold, silver, the platinum group, but not mercury)		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Iron and steel scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Cooper scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Nickel scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Aluminum scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Zinc scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Tin scrap		x			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Tungsten scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Molybdenum scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Tantalum scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Magnesium scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Cobalt scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Bismuth scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Titanium scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Zirconium scrap		x			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Manganese scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Germanium scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Vanadium scrap		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Scrap of Hafnium, Indium, Niobium, Rhenium and Gallium		x			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Thorium scrap			x		no reference to Annex II of OECD Council Decision C92(39)/EU regulation 93/259/EEC (additional control under the radiation protection act)
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Rare earth's scrap		x			
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Antimony scrap		x			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Beryllium scrap		x			
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Cadmium scrap		x			
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Lead scrap (but excluding lead-acid batteries)		x			
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Selenium scrap		x			
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Tellurium scrap		x			
B1030	Refractory metals containing residues	-	-	-		some wastes covered by this entry (e.g. hydroxide sludges) are regarded as hazardous (European Waste Code 06 03 13, 06 03 15, 06 04 05) and subject to a PIC Procedure while others (e.g. metal powders) are not

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1040	Scrap assemblies from electrical power generation not contaminated with lubricating oil, PCB or PCT to an extent to render them hazardous		x			
B1050	Mixed non-ferrous metal, heavy fraction scrap, not containing Annex I materials in concentrations sufficient to exhibit Annex III characteristics ¹			x		
B1060	Waste Selenium and Tellurium in metallic elemental form including powder			x		
B1070	Waste of copper and copper alloys in dispersible form, unless they contain Annex I constituents to an extent that they exhibit Annex III characteristics		-	-		pending on the particle size (size >100µm no control procedure applied)
B1080	Zinc ash and residues including zinc alloys residues in dispersible form unless containing Annex I constituents in concentration such as to exhibit Annex III characteristics or exhibiting hazard characteristic H4.3 ²			-		some wastes covered by this entry are not subject to a PIC Procedure (particle size > 100 µm, minimum zinc content 45%)
B1090	Waste batteries conforming to a specific a tion, excluding those made with lead, cadmium or mercury			x		

¹ Note that even where low level contamination with Annex I materials initially exists, subsequent processes, including recycling processes, may result in separated fractions containing significantly enhanced concentrations of those Annex I materials.

² The status of zinc ash is currently under review and there is a recommendation with the United Nation Conference on Trade and Development (UNTACD) that zinc ashes should not be dangerous goods.

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1100	Metal-bearing wastes arising from melting, smelting and refining of metals: – Hard zinc spelter		x			
B1100	Metal-bearing wastes arising from melting, smelting and refining of metals: Zinc-containing drosses: – Galvanizing slab zinc top dross (>90% Zn) – Galvanizing slab zinc bottom dross (>92% Zn) – Zinc die casting dross (>85% Zn) – Hot dip galvanizers slab zinc dross (batch) (>92% Zn) – Zinc skimmings		x x x x x			
B1100	Metal-bearing wastes arising from melting, smelting and refining of metals: Aluminium skimmings (or skims) excluding salt slag	-	-			gas evolving skimmings are defined as hazardous waste (European Waste Code 10 03 15) and subject to a PIC Procedure; black dross (EWC 10 03 08) are also defined as hazardous and subject to a PIC Procedure
B1100	Metal-bearing wastes arising from melting, smelting and refining of metals: Slags from copper processing for further processing or refining not containing arsenic, lead or cadmium to an extent that they exhibit Annex III hazard characteristics		x			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1100	Metal-bearing wastes arising from melting, smelting and refining of metals: Wastes of refractory linings, including crucibles, originating from copper smelting	-		x		no reference to Annex II of OECD Council Decision C92(39)/EU regulation 93/259/EEC some refractory linings are regarded as hazardous (European Waste Code 16 11 01, 16 11 03 16 11 05)
B1100	Metal-bearing wastes arising from melting, smelting and refining of metals: Slags from precious metals processing for further refining		x			
B1100	Metal-bearing wastes arising from melting, smelting and refining of metals: Tantalum bearing tin slags with less than 0.5% tin		x			
B1110	Electrical and electronic assemblies: Electronic assemblies consisting only of metals or alloys		x			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1110	Electrical and electronic assemblies: Waste electrical and electronic assemblies or scrap ³ (including printed circuit boards) not containing components such as accumulators and other batteries included on list A, mercury-switches, glass from cathode-ray tubes and other activated glass and PCB-capacitors, or not contaminated with Annex I constituents (e.g. cadmium, mercury, lead, polychlorinated biphenyl) or from which these have been removed, to an extent that they do not possess any of the characteristics contained in Annex III (Note the related entry on list A A1180)		x			
B1110	Electrical and electronic assemblies: Electrical and electronic assemblies (including printed circuit boards, electronic components and wires) destined for direct reuse ⁴ , and not for recycling or final disposal		x			in case of direct re-use (and only minor repairs (repair economically feasible) not regarded as waste

³ This entry does not include scrap from electrical power generation.

⁴ Reuse can include repair, refurbishment or upgrading, but not major reassembly.

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1120	Spent catalysts excluding liquids used as catalysts, containing any of: Transition Metals, excluding waste catalysts (spent catalysts, liquid used catalysts or other catalysts) on list A: Scandium Titanium Vanadium Chromium Manganese Iron Cobalt Nickel Copper Zinc Yttrium Zirconium Niobium Molybdenum Hafnium Tantalum Tungsten Rhenium Lanthanides (rare earth metals): Lanthanum Cerium Praseodymium Neodym Samarium Europium Gadolinium Terbium Dysprosium Holmium Erbium Thulium Ytterbium Lutetium	-	x			contaminated (e.g. oil containing) catalysts are subject to a PIC Procedure some catalysts (not covered by Annex I of the Basel Convention) are regarded as hazardous (European Waste Code 16 08 02)
B1130	Cleaned spent precious-metal-bearing catalysts		x			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1140	Precious-metal-bearing residues in solid form which contain traces of inorganic cyanides		x			
B1150	Precious metals and alloy wastes (gold, silver, the platinum group, but not mercury) in a dispersible, non-liquid form with appropriate packaging and labeling		x			
B1160	Precious-metal ash from the incineration of printed circuit boards (Note the related entry on list A A1150)			x		
B1170	Precious-metal ash from the incineration of photographic film			x		
B1180	Waste photographic film containing silver halides and metallic silver			x		
B1190	Waste photographic paper containing silver halides and metallic silver			x		
B1200	Granulated slag arising from the manufacture of iron and steel		x			if in conformity with national and/or international product standards not regarded as a waste
B1210	Slag arising from the manufacture of iron and steel including slags as a source of TiO ₂ and Vanadium		x			
B1220	Slag from zinc production, chemically stabilized, having a high iron content (above 20%) and processed according to industrial specifications (e.g.: DIN 4301) mainly for construction			x		no reference to Annex II of OECD Council Decision C92(39)/EU regulation 93/259/EEC
B1230	Mill scaling arising from the manufacture of iron and steel		x			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1240	Copper oxide mill-scale		-	-		pending on particle size, > 100 µm no control procedure applied
B2	Wastes containing principally inorganic constituents, which may contain metals and organic materials					
B2010	Wastes from mining operations in non-dispersible form: Natural graphite waste		x			
B2010	Wastes from mining operations in non-dispersible form: Slate waste, whether or not roughly trimmed or merely cut, by sawing or otherwise		x			
B2010	Wastes from mining operations in non-dispersible form: Mica waste		x			
B2010	Wastes from mining operations in non-dispersible form: Leucite, nepheline and nepheline syenite waste		x			
B2010	Wastes from mining operations in non-dispersible form: Feldspar waste		x			
B2010	Wastes from mining operations in non-dispersible form: Fluorspar waste		x			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B2010	Wastes from mining operations in non-dispersible form: Silica wastes in solid form excluding those used in foundry operations		x			
B2020	Glass waste in non-dispersible form: Cullet and other waste and scrap of glass except for glass from cathode-ray tubes and other activated glasses		x			
B2030	Ceramic wastes in non-dispersible form: Cermets and scrap (metal ceramic composites)		x			
B2030	Ceramic wastes in non-dispersible form: Ceramic based fibres not elsewhere specified or included		x			
B2040	Other wastes containing principally inorganic constituents: Partially refined calcium sulphate produced from flue-gas desulphurization (FGD)		x			
B2040	Other wastes containing principally inorganic constituents: Waste gypsum wallboard or plasterboard arising from the demolition of buildings		x			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B2040	Other wastes containing principally inorganic constituents: Slag from copper production, chemically stabilized, having a high iron content (above 20%) and processed according to industrial specifications (e.g. DIN 4301 and DIN 8201) mainly for construction and abrasive applications		x			
B2040	Other wastes containing principally inorganic constituents: Sulphur in solid form		x			
B2040	Other wastes containing principally inorganic constituents: Limestone from the production of calcium cyanamide (having a pH less than 9)		x			
B2040	Other wastes containing principally inorganic constituents: Sodium, potassium, calcium chlorides		x			
B2040	Other wastes containing principally inorganic constituents: Carborundum (silicon carbide)		x			
B2040	Other wastes containing principally inorganic constituents: Broken concrete		x			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B2040	Other wastes containing principally inorganic constituents: Lithium-Tantalum and Lithium-Niobium containing glass scraps		x			
B2050	Coal-fired power plant fly-ash, not included on list A (Note the related entry on list A A2060)		x			
B2060	Spent activated carbon resulting from the treatment of potable water and processes of the food industry and vitamin production (Note the related entry on list A A4160)		x			
B2070	Calcium fluoride sludge			x		no reference to Annex II of OECD Council Decision C92(39)/EU regulation 93/259/EEC
B2080	Waste gypsum arising from chemical industry processes not included on list A (Note the related entry on list A A2040)			x		no reference to Annex II of OECD Council Decision C92(39)/EU regulation 93/259/EEC
B2090	Waste anode butts from steel or aluminium production made of petroleum coke or bitumen and cleaned to normal industry specifications (excluding anode butts from chlor alkali electrolyses and from metallurgical industry)		x			
B2100	Waste hydrates of aluminium and waste alumina and residues from alumina production excluding such materials used for gas cleaning, flocculation or filtration processes			x		no reference to Annex II of OECD Council Decision C92(39)/EU regulation 93/259/EEC
B2110	Bauxite residue ("red mud") (pH moderated to less than 11.5)		x			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: AT
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B2120	Waste acidic or basic solutions with a pH greater than 2 and less than 11.5, which are not corrosive or otherwise hazardous (Note the related entry on list A A4090)			x		no reference to Annex II of OECD Council Decision C92(39)/EU regulation 93/259/EEC
B3 B3010	<p>Wastes containing principally organic constituents, which may contain metals and inorganic materials</p> <p>Solid plastic waste:</p> <p>The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification:</p> <p>Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following⁵:</p> <ul style="list-style-type: none"> - ethylene - styrene - polypropylene - polyethylene terephthalate - acrylonitrile - butadiene - polyacetals - polyamides - polybutylene terephthalate - polycarbonates - polyethers 		x			

⁵ It is understood that such scraps are completely polymerized.

B4020	wastes from production, formulation and use of resins, latex, plasticizers, glues/adhesives, not listed on list A, free of solvents and other contaminants to an extent that they do not exhibit Annex III characteristics, e.g. water based, or glues based on casein starch, dextrin, cellulose ethers, polyvinyl alcohols (note the related entry on List A A3050)			x		no reference to Annex II of OECD Council Decision C92(39)/EU regulation 93/259/EEC
B4030	Used single use cameras, with batteries not included on list A			x		no reference to Annex II of OECD Council Decision C92(39)/EU regulation 93/259/EEC

General remarks/information:

According to EU legislation different procedures may apply to a waste pending on the destination of the shipment and whether the waste is destined for recovery or for final disposal.

The shipments of wastes within, from and into the area of the European Union are regulated by three different regulations.

The general procedure is laid down in the shipment regulation (Council regulation 93/259/EEC) as amended.

Following the rules of 93/259/EEC the following procedures apply:

- 1) Shipments of all kinds of wastes for final disposal (defined in accordance with Annex IV A of the Basel Convention) are subject to a prior written consent procedure. No exports outside the European Economic Area (EEA) are allowed.
- 2) Shipments of wastes listed in Annex II of the regulation 93/259/EEC for recovery (defined in accordance with Annex IV B of the Basel Convention) within the OECD area are not subject to any PIC procedure. Each shipment has to be accompanied with documents giving the following information:
 - a) name and address of the waste owner
 - b) common name of the waste
 - c) amount of the waste
 - d) name and address of the consignee
 - e) recovery option as listed in Annex II B of council regulation 75/442/EEC (it's the same R-code as in Annex IV B of the Basel Convention)
 - f) date of the shipment

However, based on an European Court Decision (Case C-192/96 from 25 June 1998) mixtures of various categories of wastes are subject to a PIC Procedure.

- 3) Shipments of non listed wastes and of wastes listed in Annex III and IV of 93/259/EEC for recycling are subject to a PIC-procedure (for wastes listed in Annex III a "tacit consent" may apply within the OECD Area).
- 4) Exports of wastes listed in Annex V outside the OECD Area are prohibited. Annex V contains the wastes listed in Annex VIII of the Basel Convention, the hazardous wastes in accordance with the European Hazardous Waste List and the hazardous wastes listed in OECD Council Decision (2001)107 Appendix 4, Part II (the Council Decision (C(2001)107 is an amendment of C(92)39). By this provision the "total ban" (the amendment III/1) is implemented in European legislation.

5) The shipments of wastes listed in Annex II of 93/259/EEC to non OECD Countries are regulated by two regulations:

- a) Council regulation 1420/1999/EC and
- b) Commission regulation 1547/1999/EEC

In 1998 the European Commission contacted the non OECD Countries with a note verbal seeking information on requested control procedures for shipments of non hazardous wastes listed in Annex II of the OECD Council Decision C(92)39. On basis of the replies (and non replies) by countries the two regulation stipulate specific control procedures (from total ban to no control procedure applied).

By request of countries the two regulations are amended (typically within 3 to 5 months).

As a result of this complex situation the import of wastes listed in Annex IX of the Basel Convention to Austria is always subject to a PIC-procedure in the case of final disposal (D-operation).

In the case of import for recovery the procedure depends whether the waste listed in Annex IX of the Basel Convention can be referred to a waste listed in Annex II of the shipment regulation or not. It has to be mentioned that in order to harmonise the regulation 93/259/EEC with Annex VIII and IX of the Basel Convention and the OECD Council Decision C(2001)107 an amendment is under preparation.

Questionnaire

Cover sheet - general information:

-> Please fill in the following:

Country: Latvia	Address: Ministry of Environment 25, Peldu Str. LV-1494 Rīga Latvia
Contact person: Ms. Ilze Donina Senior Desk Officer Department of Environmental Protection Ministry of Environment	Remarks
Telephone no: +371 7026515	E-mail: ilze.donina@varam.gov.lv
Fax no: +371 7820442	Date when questionnaire completed D/M/Y: 11/02/03

1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B2040	Other wastes containing principally inorganic constituents: • Partially refined calcium sulphate produced from flue-gas desulphurization (FGD)			X		
B2040	Other wastes containing principally inorganic constituents: • Waste gypsum wallboard or plasterboard arising from the demolition of buildings			X		
B2040	Other wastes containing principally inorganic constituents: • Slag from copper production, chemically stabilized, having a high iron content (above 20%) and processed according to industrial specifications (e.g., DIN 4301 and DIN 8201) mainly for construction and abrasive applications			X		
B2040	Other wastes containing principally inorganic constituents: • Sulphur in solid form			X		
B2040	Other wastes containing principally inorganic constituents: • Limestone from the production of calcium cyanamide (having a pH less than 9)			X		
B2040	Other wastes containing principally inorganic constituents: • Sodium, potassium, calcium chlorides			X		
B2040	Other wastes containing principally inorganic constituents: • Carborundum (silicon carbide)			X		
B2040	Other wastes containing principally inorganic constituents: • Broken concrete			X		

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B2040	Other wastes containing principally inorganic constituents: • Lithium-tantalum and lithium-niobium containing glass scraps			X		
B2050	Coal-fired power plant fly-ash, not included on list A (note the related entry on list A A2060)			X		
B2060	Spent activated carbon resulting from the treatment of potable water and processes of the food industry and vitamin production (note the related entry on list A A4160)			X		
B2070	Calcium fluoride sludge			X		
B2080	Waste gypsum arising from chemical industry processes not included on list A (note the related entry on list A A2040)			X		
B2090	Waste anode butts from steel or aluminium production made of petroleum coke or bitumen and cleaned to normal industry specifications (excluding anode butts from chlor alkali electrolyses and from metallurgical industry)			X		
B2100	Waste hydrates of aluminium and waste alumina and residues from alumina production excluding such materials used for gas cleaning, flocculation or filtration processes			X		
B2110	Bauxite residue ("red mud") (pH moderated to less than 11.5)			X		
B2120	Waste acidic or basic solutions with a pH greater than 2 and less than 11.5, which are not corrosive or otherwise hazardous (note the related entry on list A A4090)			X		

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3	Wastes containing principally organic constituents, which may contain metals and inorganic materials					
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - ethylene			X		
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - styrene			X		
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - polypropylene			X		

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - polyethylene terephthalate			X		
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - acrylonitrile			X		
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - butadiene			X		

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - polyacetals			X		
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - polyamides			X		
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - polybutylene terephthalate			X		

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - polycarbonates			X		
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - polyethers			X		
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - polyphenylene sulphides			X		

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - acrylic polymers			X		
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - alkanes C10-C13 (plasticiser)			X		
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - polyurethane (not containing CFCs)			X		

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - polysiloxanes			X		
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - polymethyl methacrylate			X		
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - polyvinyl alcohol			X		

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - polyvinyl butyral			X		
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: • Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: - polyvinyl acetate			X		
B3010	Solid plastic waste: • Cured waste resins or condensation products including the following: - urea formaldehyde resins			X		
B3010	Solid plastic waste: • Cured waste resins or condensation products including the following: - phenol formaldehyde resins			X		
B3010	Solid plastic waste: • Cured waste resins or condensation products including the following: - melamine formaldehyde resins			X		
B3010	Solid plastic waste: • Cured waste resins or condensation products including the following: - epoxy resins			X		

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3010	Solid plastic waste: • Cured waste resins or condensation products including the following: - alkyd resins			X		
B3010	Solid plastic waste: • Cured waste resins or condensation products including the following: - polyamides			X		
B3010	Solid plastic waste: • The following fluorinated polymer wastes: - perfluoroethylene/propylene (FEP)			X		
B3010	Solid plastic waste: • The following fluorinated polymer wastes: - perfluoroalkoxy alkane (PFA)			X		
B3010	Solid plastic waste: • The following fluorinated polymer wastes: - perfluoroalkoxy alkane (MFA)			X		
B3010	Solid plastic waste: • The following fluorinated polymer wastes: - polyvinylfluoride (PVF)			X		
B3010	Solid plastic waste: • The following fluorinated polymer wastes: - polyvinylidene fluoride (PVDF)			X		
B3020	Paper, paperboard and paper product wastes The following materials, provided they are not mixed with hazardous wastes: Waste and scrap of paper or paperboard of: • unbleached paper or paperboard or of corrugated paper or paperboard		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3020	Paper, paperboard and paper product wastes The following materials, provided they are not mixed with hazardous wastes: Waste and scrap of paper or paperboard of: • other paper or paperboard, made mainly of bleached chemical pulp, not coloured in the mass		X			
B3020	Paper, paperboard and paper product wastes The following materials, provided they are not mixed with hazardous wastes: Waste and scrap of paper or paperboard of: • paper or paperboard made mainly of mechanical pulp (for example, newspapers, journals and similar printed matter)		X			
B3020	Paper, paperboard and paper product wastes The following materials, provided they are not mixed with hazardous wastes: Waste and scrap of paper or paperboard of: • other, including but not limited to 1) laminated paperboard 2) unsorted scrap.		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Silk waste (including cocoons unsuitable for reeling, yarn waste and garnetted stock) - not carded or combed		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Silk waste (including cocoons unsuitable for reeling, yarn waste and garnetted stock) - other		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Waste of wool or of fine or coarse animal hair, including yarn waste but excluding garnetted stock - noils of wool or of fine animal hair		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Waste of wool or of fine or coarse animal hair, including yarn waste but excluding garnetted stock - other waste of wool or of fine animal hair		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Waste of wool or of fine or coarse animal hair, including yarn waste but excluding garnetted stock - waste of coarse animal hair		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Cotton waste (including yarn waste and garnetted stock) - yarn waste (including thread waste)		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Cotton waste (including yarn waste and garnetted stock) - garnetted stock		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Cotton waste (including yarn waste and garnetted stock) - other		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Flax tow and waste		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Tow and waste (including yarn waste and garnetted stock) of true hemp (<u>Cannabis sativa</u> L.)		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Tow and waste (including yarn waste and garnetted stock) of jute and other textile bast fibres (excluding flax, true hemp and ramie)		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Tow and waste (including yarn waste and garnetted stock) of sisal and other textile fibres of the genus Agave		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Tow, noils and waste (including yarn waste and garnetted stock) of coconut		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Tow, noils and waste (including yarn waste and garnetted stock) of abaca (Manila hemp or <i>Musa textilis</i> Nee)		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Tow, noils and waste (including yarn waste and garnetted stock) of ramie and other vegetable textile fibres, not elsewhere specified or included		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Waste (including noils, yarn waste and garnetted stock) of man-made fibres - of synthetic fibres		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Waste (including noils, yarn waste and garnetted stock) of man-made fibres - of artificial fibres		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Worn clothing and other worn textile articles		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Used rags, scrap twine, cordage, rope and cables and worn out articles of twine, cordage, rope or cables of textile materials - sorted		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: • Used rags, scrap twine, cordage, rope and cables and worn out articles of twine, cordage, rope or cables of textile materials - other		X			
B3040	Rubber wastes The following materials, provided they are not mixed with other wastes: • Waste and scrap of hard rubber (e.g., ebonite)			X		
B3040	Rubber wastes The following materials, provided they are not mixed with other wastes: • Other rubber wastes (excluding such wastes specified elsewhere)			X		
B3050	Untreated cork and wood waste: • Wood waste and scrap, whether or not agglomerated in logs, briquettes, pellets or similar forms		X			
B3050	Untreated cork and wood waste: • Cork waste: crushed, granulated or ground cork		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3060	Wastes arising from agro-food industries provided it is not infectious: • Wine lees			X		
B3060	Wastes arising from agro-food industries provided it is not infectious: • Dried and sterilized vegetable waste, residues and byproducts, whether or not in the form of pellets, of a kind used in animal feeding, not elsewhere specified or included			X		
B3060	Wastes arising from agro-food industries provided it is not infectious: • Degras: residues resulting from the treatment of fatty substances or animal or vegetable waxes			X		
B3060	Wastes arising from agro-food industries provided it is not infectious: • Waste of bones and horn-cores, unworked, defatted, simply prepared (but not cut to shape), treated with acid or degelatinised			X		
B3060	Wastes arising from agro-food industries provided it is not infectious: • Fish waste			X		
B3060	Wastes arising from agro-food industries provided it is not infectious: • Cocoa shells, husks, skins and other cocoa waste			X		
B3060	Wastes arising from agro-food industries provided it is not infectious: • Other wastes from the agro-food industry excluding by-products which meet national and international requirements and standards for human or animal consumption			X		

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3070	The following wastes: • Waste of human hair			X		
B3070	The following wastes: • Waste straw			X		
B3070	The following wastes: • Deactivated fungus mycelium from penicillin production to be used as animal feed			X		
B3080	Waste parings and scrap of rubber			X		
B3090	Paring and other wastes of leather or of composition leather not suitable for the manufacture of leather articles, excluding leather sludges, not containing hexavalent chromium compounds and biocides (note the related entry on list A A3100)			X		
B3100	Leather dust, ash, sludges or flours not containing hexavalent chromium compounds or biocides (note the related entry on list A A3090)			X		
B3110	Fellmongery wastes not containing hexavalent chromium compounds or biocides or infectious substances (note the related entry on list A A3110)			X		
B3120	Wastes consisting of food dyes			X		
B3130	Waste polymer ethers and waste non-hazardous monomer ethers incapable of forming peroxides			X		
B3140	Waste pneumatic tyres, excluding those destined for Annex IVA operations			X		
B4	Wastes which may contain either inorganic or organic constituents					

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Latvia
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B4010	Wastes consisting mainly of water-based/latex paints, inks and hardened varnishes not containing organic solvents, heavy metals or biocides to an extent to render them hazardous (note the related entry on list A A4070)			X		
B4020	wastes from production, formulation and use of resins, latex, plasticizers, glues/adhesives, not listed on list A, free of solvents and other contaminants to an extent that they do not exhibit Annex III characteristics, e.g. water based, or glues based on casein starch, dextrin, cellulose ethers, polyvinyl alcohols (note the related entry on List A A3050)			X		
B4030	Used single use cameras, with batteries not included on list A			X		

Note: The questions are voluntary and Parties have the full freedom to respond to all, to some or to none of the questions.

Questionnaire

Cover sheet - general information:

-> Please fill in the following:

Country: Sultanate of Oman	Address: Ministry of Regional Municipalities, Environment and Water Resources, P.O. Box 323, Muscat, Post Code 113
Contact person: Mohammed Bin Ali Al-Hakamani,	Remarks Director of Coordination and Follow Up
Telephone no: +968 692471	E-mail: oman_environment@yahoo.com
Fax no: +968 692928	Date when questionnaire completed D/M/Y: 26/02/2003

To request an electronic version of this questionnaire, to return the completed questionnaire, or for further information, clarification or assistance, please contact:

Mr Ibrahim Shafii
 Secretariat of the Basel Convention SBC
 15, chemin des Anémones
 1219 Châtelaine, Geneva
 Switzerland
 Tel: (41 22) 917 8636; Fax: (41 22) 797 3454
 E-mail: ibrahim.shafii@unep.ch

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Sultanate of Oman
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1 B1010	Metal and metal-bearing waste Metal and metal-alloy waste in metallic, non dispersible form: - precious metals (gold, silver, the platinum group, but not mercury)				V	Oman legislation prohibits the import of an waste, (hazardous or non-hazardous)
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Iron and steel scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Cooper scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Nickel scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Aluminum scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Zinc scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Tin scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Tungsten scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Molybdenum scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Tantalum scrap				V	

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Sultanate of Oman
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Magnesium scrap				V	Oman legislation prohibits the import of an waste, (hazardous or non-hazardous)
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Cobalt scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Bismuth scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Titanium scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Zirconium scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Manganese scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Germanium scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Vanadium scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Scrap of Hafnium, Indium, Niobium, Rhenium and Gallium				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Thorium scrap				V	
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Rare earth's scrap				V	

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Sultanate of Oman
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Antimony scrap				V	Oman legislation prohibits the import of an waste, (hazardous or non-hazardous)
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Beryllium scrap				V	
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Cadmium scrap				V	
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Lead scrap (but excluding lead-acid batteries)				V	
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Selenium scrap				V	
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Tellurium scrap				V

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Sultanate of Oman
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B4020	wastes from production, formulation and use of resins, latex, plasticizers, glues/adhesives, not listed on list A, free of solvents and other contaminants to an extent that they do not exhibit Annex III characteristics, e.g. water based, or glues based on casein starch, dextrin, cellulose ethers, polyvinyl alcohols (note the related entry on List A A3050)				V	Oman legislation prohibits the import of an waste, (hazardous or non-hazardous)
B4030	Used single use cameras, with batteries not included on list A				V	

Note: The questions are voluntary and Parties have the full freedom to respond to all, to some or to none of the questions.

Questionnaire

Cover sheet - general information:

-> Please fill in the following:

Country: SPAIN	Address: Plaza de San Juan de la Cruz s/n 28071 – Madrid SPAIN
Contact person: Francisco Aleza	Remarks <i>The reply to this questionnaire is sent upon the request from the OEWG and is only meant as a background paper for the discussions in the OEWG. It might be containing errors and any formal statement on the classification of the wastes for the purpose of the control of transboundary movements in Spain is valid only when coming from the Competent Authority</i>
Telephone no: +34 91 597 5845	E-mail: francisco.aleza@sgca.mma.es
Fax no: +34 91 597 5938	Date when questionnaire completed D/M/Y: 25 / 02 / 03

Note: This Tables are only meant as a background paper for the discussions in the OEWG. It might be containing errors and any formal statement on the classification of the wastes for the purpose of the control of transboundary movements in Spain is valid only when coming from the Competent Authority

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: SPAIN (see Note below)
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1	Metal and metal-bearing waste					
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - precious metals (gold, silver, the platinum group, but not mercury)		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Iron and steel scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Cooper scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Nickel scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Aluminum scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Zinc scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Tin scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Tungsten scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Molybdenum scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Tantalum scrap		X

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1 B1010	Metal and metal-bearing waste Metal and metal-alloy waste in metallic, non dispersible form: - precious metals (gold, silver, the platinum group, but not mercury)		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Iron and steel scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Cooper scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Nickel scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Aluminum scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Zinc scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Tin scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Tungsten scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Molybdenum scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Tantalum scrap		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Magnesium scrap	see box 4	X	(X)		Chips and particles of magnesium are Art. 1(1)b waste -> PIC-Procedure
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Cobalt scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Bismuth scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Titanium scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Zirconium scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Manganese scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Germanium scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Vanadium scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Scrap of Hafnium, Indium, Niobium, Rhenium and Gallium		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Thorium scrap		X			
B1010	Metal and metal-alloy waste in metallic, non dispersible form: - Rare earth's scrap		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Antimony scrap		X			
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Beryllium scrap		X			
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Cadmium scrap		X			
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Lead scrap (but excluding lead-acid batteries)		X			
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Selenium scrap		X	(X)		Cadmium scrap -> PIC-Procedure
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Tellurium scrap		X			
B1030	Refractory metals containing residues		X			
B1040	Scrap assemblies from electrical power generation not contaminated with lubricating oil, PCB or PCT to an extent to render them hazardous		X			
B1050	Mixed non-ferrous metal, heavy fraction scrap, not containing Annex I materials in concentrations sufficient to exhibit Annex III characteristics ¹⁰		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1060	Waste selenium and tellurium in metallic elemental form including powder		X			
B1070	Waste of copper and copper alloys in dispersible form, unless they contain Annex I constituents to an extent that they exhibit Annex III characteristics		X			
B1080	Zinc ash and residues including zinc alloys redidues in dispersible form unless containing Annex I constituents in concentration such as to exhibit Annex III characteristics or exhibiting hazard characteristic H4.3 ¹¹ .	X		X		Zinc ashes are Art. 1(1)b waste -> PIC-Procedure
B1090	Waste batteries conforming to a specification, excluding those made with lead, cadmium or mercury	X		X		All batteries are Art. 1(1)b waste -> PIC-Procedure
B1100	Metal-bearing wastes arising from melting, smelting and refining of metals: - Hard zinc spelter		X			
B1100	Metal-bearing wastes arising from melting, smelting and refining of metals: - Zinc-containing drosses: Galvanizing slab zinc top dross (>90 % Zn), galvanizing slab zinc bottom dross (>92 % Zn), zinc die casting dross (>85 % Zn), hot dip galvanizers slab zinc dross (batch)(>92 % Zn), zinc skimming	X				
B1100	Metal-bearing wastes arising from melting, smelting and refining of metals: - Aluminium skimming (or skims) excluding salt slag		X	(X)		Aluminium skimming that are flammable or emit, upon contact with water, flammable gases in dangerous quantities -> PIC-Procedure

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1100	Metal-bearing wastes arising from melting, smelting and refining of metals: - Slags from copper processing for further processing or refining not containing arsenic, lead or cadmium to an extent that they exhibit Annex III hazard characteristics		X			
B1100	Metal-bearing wastes arising from melting, smelting and refining of metals: - Wastes of refractory linings, including crucibles, originating from copper smelting	X		X		
B1100	Metal-bearing wastes arising from melting, smelting and refining of metals: - Slags from precious metals processing for further refining		X			
B1100	Metal-bearing wastes arising from melting, smelting and refining of metals: - Tantalum-bearing tin slags with less than 0.5 % tin		X			
B1110	Electrical and electronic assemblies: - Electronic assemblies consisting only of metals or alloys	X				

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1110	Electrical and electronic assemblies: - Waste electrical and electronic assemblies or scrap including printed circuit boards) not containing components such as accumulators and other batteries included on list A, mercury-switches, glass from cathoderay tubes and other activated glass and PCB-capacitors, or not contaminated with Annex I constituents (e.g., cadmium, mercury, lead, polychlorinated biphenyl) or from which these have been removed, to an extent that they do not possess any of the characteristics contained in Annex III (note the related entry on list A A1180)		X			However Export of all WEEE -> PIC-Procedure
B1110	Electrical and electronic assemblies: - Electrical and electronic assemblies (including printed circuit boards, electronic components and wires) destined for direct reuse, and not for recycling or final disposal		X			However Export of all WEEE (including repair) -> PIC-Procedure Electric and electrical appliances still working and moved transboundary for second hand market are not considered to be waste.
B1120	Spent catalysts excluding liquids used as catalysts, containing any of: - Transition metals, excluding waste catalysts (spent catalysts, liquid used catalysts or other catalysts) on list A: Scandium, vanadium, manganese, cobalt, copper, yttrium, niobium, hafnium, tungsten, titanium, chromium, iron, nickel, zinc, zirconium, molybdenum, tantalum, rhenium		X	(X)		spent catalysts containing inflammable liquids: Art 1(1)b waste -> PIC-Procedure

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1120	Spent catalysts excluding liquids used as catalysts, containing any of: - Lanthanides (rare earth metals): Lanthanum, praseodymium, samarium, gadolinium, dysprosium, erbium, ytterbium, cerium, neody, europium, terbium, holmium, thulium, lutetium		X	(X)		spent catalysts containing inflammable liquids: Art 1(1)b waste -> PIC-Procedure
B1130	Cleaned spent precious-metal-bearing catalysts		X			
B1140	Precious-metal-bearing residues in solid form which contain traces of inorganic cyanides		X			
B1150	Precious metals and alloy wastes (gold, silver, the platinum group, but not mercury) in a dispersible, non-liquid form with appropriate packaging and labelling		X			
B1160	Precious-metal ash from the incineration of printed circuit boards (note the related entry on list A A1150)	X		X		
B1170	Precious-metal ash from the incineration of photographic film		X			
B1180	Waste photographic film containing silver halides and metallic silver		X			
B1190	Waste photographic paper containing silver halides and metallic silver		X			
B1200	Granulated slag arising from the manufacture of iron and steel		X			
B1210	Slag arising from the manufacture of iron and steel including slags as a source of TiO ₂ and vanadium		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B1220	Slag from zinc production, chemically stabilized, having a high iron content (above 20%) and processed according to industrial specifications (e.g., DIN 4301) mainly for construction		X			
B1230	Mill scaling arising from the manufacture of iron and steel		X			
B1240	Copper oxide mill-scale		X			
B2	Wastes containing principally inorganic constituents, which may contain metals and organic materials					
B2010	Wastes from mining operations in non-dispersible form: - Natural graphite waste		X			
B2010	Wastes from mining operations in non-dispersible form: - Slate waste, whether or not roughly trimmed or merely cut, by sawing or otherwise		X			
B2010	Wastes from mining operations in non-dispersible form: - Mica waste		X			
B2010	Wastes from mining operations in non-dispersible form: - Leucite, nepheline and nepheline syenite waste		X			
B2010	Wastes from mining operations in non-dispersible form: - Feldspar waste		X			
B2010	Wastes from mining operations in non-dispersible form: - Fluorspar waste		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B2010	Wastes from mining operations in non-dispersible form: -Silica wastes in solid form excluding those used in foundry operations		X			
B2020	Glass waste in non-dispersible form: - Cullet and other waste and scrap of glass except for glass from cathode-ray tubes and other activated glasses		X			
B2030	Ceramic wastes in non-dispersible form: - Cermet wastes and scrap (metal ceramic composites)		X			
B2030	Ceramic wastes in non-dispersible form: - Ceramic based fibres not elsewhere specified or included		X			
B2040	Other wastes containing principally inorganic constituents: - Partially refined calcium sulphate produced from flue-gas desulphurization (FGD)		X			
B2040	Other wastes containing principally inorganic constituents: - Waste gypsum wallboard or plasterboard arising from the demolition of buildings		X			
B2040	Other wastes containing principally inorganic constituents: - Slag from copper production, chemically stabilized, having a high iron content (above 20%) and processed according to industrial specifications (e.g., DIN 4301 and DIN 8201) mainly for construction and abrasive applications		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B2040	Other wastes containing principally inorganic constituents: - Limestone from the production of calcium cyanamide (having a pH less than 9)		X			
B2040	Other wastes containing principally inorganic constituents: - Sodium, potassium, calcium chlorides		X			
B2040	Other wastes containing principally inorganic constituents: - Carborundum (silicon carbide)		X			
B2040	Other wastes containing principally inorganic constituents: - Broken concrete		X			
B2040	Other wastes containing principally inorganic constituents: - Lithium-tantalum and lithium-niobium containing glass scraps		X			
B2050	Coal-fired power plant fly-ash, not included on list A (note the related entry on list A A2060)	X	X	X		Case by case decisions, based on limit values
B2060	Spent activated carbon resulting from the treatment of potable water and processes of the food industry and vitamin production (note the related entry on list A A4160)		X			activated carbon containing genetically modified organisms are Art. 1(1)b waste -> PIC-Procedure
B2070	Calcium fluoride sludge		X			
B2080	Waste gypsum arising from chemical industry processes not included on list A (note the related entry on list A A2040)		X			
B2090	Waste anode butts from steel or aluminium production made of petroleum coke or bitumen and cleaned to normal industry specifications (excluding anode butts from chlor alkali electrolyses and from metallurgical industry)		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B2100	Waste hydrates of aluminium and waste alumina and residues from alumina production excluding such materials used for gas cleaning, flocculation or filtration processes		X			
B2110	Bauxite residue ("red mud") (pH moderated to less than 11.5)		X			
B2120	Waste acidic or basic solutions with a pH greater than 2 and less than 11.5, which are not corrosive or otherwise hazardous (note the related entry on list A A4090)	X		X		
B3	Wastes containing principally organic constituents, which may contain metals and inorganic materials					
B3010	Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: - Scrap plastic of non-halogenated polymers and co-polymers, including but not limited to the following: ethylene, styrene, polypropylene, polyethylene terephthalate, acrylonitrile, butadiene, polyacetals, polyamides, polybutylene terephthalate, polycarbonates, polyethers, polyphenylene sulphides, acrylic polymers, alkanes C10-C13 (plasticiser), polyurethane (not containing CFCs), polysiloxanes, polymethyl methacrylate, polyvinyl alcohol, polyvinyl butyral, polyvinyl acetate		X			Plastics containing flame retardants are art. 1(1)b waste -> PIC-Procedure

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3010	<p>Solid plastic waste: The following plastic or mixed plastic materials, provided they are not mixed with other wastes and are prepared to a specification: - Cured waste resins or condensation products including the following: urea formaldehyde resins, phenol formaldehyde resins, melamine formaldehyde resins, epoxy resins, alkyd resins polyamides,</p> <p>The following fluorinated polymer wastes: Perfluoroethylene/propylene (FEP), perfluoroalkoxy alkane (PFA), perfluoroalkoxy alkane (MFA), polyvinylfluoride (PVF), polyvinylidene fluoride (PVDF)</p>		X			Plastics containing flame retardants are art. 1(1)b waste -> PIC-Procedure
B3020	<p>Paper, paperboard and paper product wastes The following materials, provided they are not mixed with hazardous wastes: Waste and scrap of paper or paperboard of: - Unbleached paper or paperboard or of corrugated paper or paperboard</p>		X			
B3020	<p>Paper, paperboard and paper product wastes Waste and scrap of paper or paperboard of: - Other paper or paperboard, made mainly of bleached chemical pulp, not coloured in the mass</p>		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3020	Paper, paperboard and paper product wastes Waste and scrap of paper or paperboard of: - Paper or paperboard made mainly of mechanical pulp (for example, newspapers, journals and similar printed matter)		X			
B3020	Paper, paperboard and paper product wastes Waste and scrap of paper or paperboard of: - Other, including but not limited to 1) laminated paperboard 2) unsorted scrap		X			
B3030	Textile wastes The following materials, provided they are not mixed with other wastes and are prepared to a specification: - Silk waste (including cocoons unsuitable for reeling, yarn waste and garnetted stock): Not carded or combed, other		X			
B3030	Textile wastes - Waste of wool or of fine or coarse animal hair, including yarn waste but excluding garnetted stock: Noils of wool or of fine animal hair, other waste of wool or of fine animal hair, waste of coarse animal hair		X			
B3030	Textile wastes - Cotton waste (including yarn waste and garnetted stock): Yarn waste (including thread waste), garnetted stock, other		X			
B3030	Textile wastes - Flax tow and waste		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3030	Textile wastes - Tow and waste (including yarn waste and garnetted stock) of true hemp (<i>Cannabis sativa</i> L.)		X			
B3030	Textile wastes - Tow and waste (including yarn waste and garnetted stock) of jute and other textile bast fibres (excluding flax, true hemp and ramie)		X			
B3030	Textile wastes - Tow and waste (including yarn waste and garnetted stock) of sisal and other textile fibres of the genus <i>Agave</i>		X			
B3030	Textile wastes - Tow, noils and waste (including yarn waste and garnetted stock) of coconut		X			
B3030	Textile wastes - Tow, noils and waste (including yarn waste and garnetted stock) of abaca (<i>Manila hemp</i> or <i>Musa textilis</i> Nee)		X			
B3030	Textile wastes - Tow, noils and waste (including yarn waste and garnetted stock) of ramie and other vegetable textile fibres, not elsewhere specified or included		X			
B3030	Textile wastes - Waste (including noils, yarn waste and garnetted stock) of man-made fibres		X			
B3030	Textile wastes - Worn clothing and other worn textile articles		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3030	Textile wastes - Used rags, scrap twine, cordage, rope and cables and worn out articles of twine, cordage, rope or cables of textile materials: Sorted, other		X			
B3040	Rubber wastes The following materials, provided they are not mixed with other wastes: - Waste and scrap of hard rubber (e.g., ebonite)		X			
B3040	Rubber wastes - Other rubber wastes (excluding such wastes specified elsew here)		X			
B3050	Untreated cork and wood waste: - Wood waste and scrap, whether or not agglomerated in logs, briquettes, pellets or similar forms		X			
B3050	Untreated cork and wood waste: - Cork waste: crushed, granulated or ground cork		X			
B3060	Waste arising from agro-food industries provided it is not infectious: - Wine lees		X			
B3060	Waste arising from agro-food industries provided it is not infectious: - Dried and sterilized vegetable waste, residues and byproducts, whether or not in the form of pellets, of a kind used in animal feeding, not elsewhere specified or included		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3060	Waste arising from agro-food industries provided it is not infectious: - Degras: residues resulting from the treatment of fatty substances or animal or vegetable waxes		X			
B3060	Waste arising from agro-food industries provided it is not infectious: - Waste of bones and horn-cores, unworked, defatted, simply prepared (but not cut to shape), treated with acid or degelatinised		X			
B3060	Waste arising from agro-food industries provided it is not infectious: - Fish waste		X			
B3060	Waste arising from agro-food industries provided it is not infectious: - Cocoa shells, husks, skins and other cocoa waste		X			
B3060	Waste arising from agro-food industries provided it is not infectious: -Other wastes from the agro-food industry excluding by-products which meet national and international requirements and standards for human or animal consumption		X			
B3070	The following wastes: - Waste of human hair		X			
B3070	The following wastes: - Waste straw		X			
B3070	The following wastes: - Deactivated fungus mycelium from penicillin production to be used as animal feed	(X)	(X)	see box 4		Case by case decision
B3080	Waste parings and scrap of rubber		X			

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B3090	Paring and other wastes of leather or of composition leather not suitable for the manufacture of leather articles, excluding leather sludges, not containing hexavalent chromium compounds and biocides (note the related entry on list A A3100)		X			
B3100	Leather dust, ash, sludges or flours not containing hexavalent chromium compounds or biocides (note the related entry on list A A3090)		X			
B3110	Fellmongery wastes not containing hexavalent chromium compounds or biocides or infectious substances (note the related entry on list A A3110)		X			
B3120	Wastes consisting of food dyes		X			
B3130	Waste polymer ethers and waste non-hazardous monomer ethers incapable of forming peroxides		X			
B3140	Waste pneumatic tyres, excluding those destined for Annex IVA operations		X			
B4	Wastes which may contain either inorganic or organic constituents					
B4010	Wastes consisting mainly of water-based/latex paints, inks and hardened varnishes not containing organic solvents, heavy metals or biocides to an extent to render them hazardous (note the related entry on list A A4070)	X				

1. Annex IX of the Basel Convention (List B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: Switzerland
1.a Code	1.b Waste	2.a Art. 1(1)b waste	2.b No control procedure	2.c PIC - Procedure	2.d Import prohibited	4. Comments and information
B4020	Wastes from production, formulation and use of resins, latex, plasticizers, glues/adhesives, not listed on list A, free of solvents and other contaminants to an extent that they do not exhibit Annex III characteristics, e.g. water based, or glues based on casein starch, dextrin, cellulose ethers, polyvinyl alcohols (note the related entry on List A A3050)	X				
B4030	Used single use cameras, with batteries not included on list A	X		X		- All batteries are Art. 1(1)b waste -> PIC-Procedure - Used single use cameras are considered as WEEE - Export of all WEEE -> PIC-Procedure

Note: The questions are voluntary and Parties have the full freedom to respond to all, to some or to none of the questions.

QUESTIONNAIRE

Cover sheet- general information:

Country TURKEY	Address: Eskisehir Yolu 8. km. 06530 Ankara – Türkiye (TURKEY)
Contact person: Kemal KURUSAKIZ Chief of Section for the Hazardous Waste Management	Remarks:

1. Annex IX of the Basel Convention (list B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: TURKEY
1.a Code	1.b Waste	2.a Art. 1(1) b Waste	2.b No control procedure	2.c PIC- Procedure	2.d Import Prohibited	4. Comments and information
B1	Metal and metal-bearing waste					
B1010	Metal and non-metal alloy waste in metallic, non dispersible form: - precious metals (gold, silver, the platinum group, but not mercury)		v			<p>A- For the non dispersible forms of those materials, there is no control procedure according to National Legislation.</p> <p>B- PIC Procedure is applied by the Ministry of Environment for the import of some specially processed form of ashes and residues of Copper, Zinc and Nickel explained as follows;</p> <p>Costum number:2618.00.00.0000</p> <p>Granulated slag (slag sand) from manufacture of iron or steel (only those which their chemical and physical characteristics comply with ISO-111126-6)</p> <p>Costum number:2620.11.00.00</p> <p>Hard zing spelter Zing containing drosses.</p> <ul style="list-style-type: none"> • Galvanizing slab zinc top dross (>90 % Zn) • Galvanizing slab zinc bottom dross (>92 % Zn) • Zinc die cast dross (> 85 % Zn) • Hot dip galvznizers slab zinc dross (batch) (>%92 Zn) • Zinc skimmings
B1010	Metal and non-metal alloy waste in metallic, non dispersible form: - Iron and steel scrap		v			
B1010	Metal and non-metal alloy waste in metallic, non dispersible form: - Copper scrap		v			
B1010	Metal and non-metal alloy waste in metallic, non dispersible form: - Nickel scrap		v			
B1010	Metal and non-metal alloy waste in metallic, non dispersible form: - Aluminum scrap		v			
B1010	Metal and non-metal alloy waste in metallic, non dispersible form: - Zinc scrap		v			
B1010	Metal and non-metal alloy waste in metallic, non dispersible form: -Tin scrap		v			
B1010	Metal and non-metal alloy waste in metallic, non dispersible form: - Tungsten scrap		v			
B1010	Metal and non-metal alloy waste in metallic, non dispersible form: - Molybdenum scrap		v			

1. Annex IX of the Basel Convention (list B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: TURKEY
1.a Code	1.b Waste	2.a Art. 1(1) b Waste	2.b No control procedure	2.c PIC- Procedure	2.d Import Prohibited	4. Comments and information
B1010	Metal and non-metal alloy waste in metallic, non dispersible form: - Tantalum scrap		v			<u>Costum number:2620.30.00.00.00</u> Containing mainly copper (only those which their chemical and physical characteristics comply with ISO-11126-3)
B1010	Metal and non metal alloy waste in metallic, non dispersible form: - Magnesium scrape		v			<u>Costum number:2620.99.00.00.00</u>
B1010	Metal and non metal alloy waste in metallic, non dispersible form: - Cobalt scrape		v			Containing mainly nickel (only those which their chemical and physical characteristics comply with ISO-11126-5)
B1010	Metal and non metal alloy waste in metallic, non dispersible form: - Bismuth scrape		v			<u>Costum number:2621.90.00.90.00</u>
B1010	Metal and non metal alloy waste in metallic, non dispersible form: - Titanium scrape		v			Others (only coal granulated slag which their chemical and physical characteristics comply with ISO- 11126-4)
B1010	Metal and non metal alloy waste in metallic, non dispersible form: - Zirconium scrap		v			C- However, import of ash and residue forms of other materials are prohibited.
B1010	Metal and non metal alloy waste in metallic, non dispersible form: - Manganese scrap		v			
B1010	Metal and non metal alloy waste in metallic, non dispersible form: - Germanium scrap		v			
B1010	Metal and non metal alloy waste in metallic, non dispersible form: - Vanadium scrap		v			
B1010	Metal and non metal alloy waste in metallic, non dispersible form: - Scrape of Hafnium, Indium, Niobium, Rhenium and Gallium		v

1.a Code	1.b Waste	2.a Art. 1(1) b Waste	2.b No control procedure	2.c PIC-Procedure	2.d Import Prohibited	4. Comments and information
B1010	Metal and non metal alloy waste in metallic, non dispersible form: - Thorium scrape		v			
B1010	Metal and non metal alloy waste in metallic, non dispersible form: - Rare earth's scrape		v			
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Antimony scrap				v	
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Beryllium scrap				v	
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Cadmium scrap				v	
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Lead scrap (but excluding lead-acid batteries)				v	
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Selenium scrap				v	
B1020	Clean uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc.), of: - Tellurium scrap				v	

1. Annex IX of the Basel Convention (list B)		2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention				3. Country: TURKEY
1.a Code	1.b Waste	2.a Art. 1(1) b Waste	2.b No control procedure	2.c PIC- Procedure	2.d Import Prohibited	4. Comments and information
B4020	Waste from production, formulation and use of resin, latex, plasticizers, glues/adhesives, not listed on list A, free of extent that they do not exhibit Annex III characteristics, e.g. water based, or glues based on casein starch, dextrin, cellulose ethers, polyvinyl alcohols (note the related entry on List A A3050)				v	<p>PIC Procedure is applied by the Ministry of Environment for the importation of rubbers:</p> <p>Custom number: 4004.00.00.00.11</p> <p>Parings and scrap of rubber (other than hard rubber) (only those to be used for construction of sport facilities or conveyor systems or tyre filling operations)</p> <p>Custom number: 4004.00.00.00.12</p> <p>Rubber residue (other than hard rubber) (only those to be used for construction of sport facilities or conveyor systems or tyre filling operations)</p> <p>Custom number: 4004.00.00.00.13</p> <p>Powders and granules (other than hard rubber) (only those to be used for construction of sport facilities or conveyor systems or tyre filling operations)</p> <p>Custom number: 4017.00.10.00.12</p> <p>Hard rubber (for example ebonite) in any form scrap, residues and powder. (Only hard rubber (ebonite) powder)</p>
B4030	Used single use cameras, with batteries not included on list A				v
