OPEN-ENDED WORKING GROUP OF THE BASEL  
CONVENTION ON THE CONTROL OF  
TRANSBOUNDARY MOVEMENTS OF  
HAZARDOUS WASTES AND  
THEIR DISPOSAL

First session  
Geneva, 28 April to 2 May 2003

Item 5 (c) of the provisional agenda\*

ANNEX IX TO THE BASEL CONVENTION

Responses provided by Parties received after 20 February 2003 deadline

Enclosed are responses provided by Parties received after 20 February 2003 on the questionnaire concerning the national classification and control procedures for the import of wastes contained in Annex IX (List B wastes).

| B1010  | Metal and metal-alloy wastes in metallic, non-dispersible form: • Thorium scrap  |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Not listed in the Green, Amber or Red Lists.                          |
| B1010  | Metal and metal-alloy wastes in metallic, non-dispersible form: • Rare earths scrap  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |
| B1020  | Clean, uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc), of: • Antimony scrap  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |
| B1020  | Clean, uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc), of: • Beryllium scrap   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |
| B1020  | Clean, uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc), of: • Cadmium scrap   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |
| B1020  | Clean, uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc), of: • Lead scrap (but excluding lead-acid batteries)  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |
| B1020  | Clean, uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc), of: • Selenium scrap  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |
| B1020  | Clean, uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc), of: • Tellurium scrap   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |
| B1030  | Refractory metals containing residues  |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Not listed in the Green, Amber or Red Lists.                          |
| B1040  | Scrap assemblies from electrical power generation not contaminated with lubricating oil, PCB or PCT to an extent to render them hazardous  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |
| B1050  | Mixed non-ferrous metal, heavy fraction scrap, not containing Annex I materials in concentrations sufficient to exhibit Annex III characteristics  |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Not listed in the Green, Amber or Red Lists.                          |
| B1060  | Waste selenium and tellurium in metallic elemental form including powder   |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Not listed in the Green, Amber or Red Lists.                          |
| B1070  | Waste of copper and copper alloys in dispersible form, unless they contain Annex I constituents to an extent that they exhibit Annex III characteristics   |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Covered by Amber List entry AA040 Copper ashes and residues.          |
| B1080  | Zinc ash and residues including zinc alloys residues in dispersible form unless containing Annex I constituents in concentration such as to exhibit Annex III characteristics or exhibiting hazard characteristic H4.3 |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Covered by Amber List entry AA020 Zinc ashes and residues.            |
| B1090  | Waste batteries conforming to a specification, excluding those made with lead, cadmium or mercury  |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Covered by Amber List entry AA180 Used batteries or accumulators etc. |

| 1. Annex IX of the Basel Convention (List B) |  | 2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention |                          |                     |                       | 3. Country: <b>Czech Republic</b>   |

| 1.a Code                                     | 1.b Waste  | 2.a Art.1(1)b waste   | 2.b No control procedure | 2.c PIC - procedure | 2.d Import prohibited | 4. Comments and information   |
| B1100  | Metal-bearing wastes arising from melting, smelting and refining of metals:<br>• Hard zinc spelter   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B1100  | Metal-bearing wastes arising from melting, smelting and refining of metals:<br>• Zinc-containing drosses:<br>- Galvanizing slab zinc top dross (>90% Zn)   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B1100  | Metal-bearing wastes arising from melting, smelting and refining of metals:<br>• Zinc-containing drosses:<br>- Galvanizing slab zinc bottom dross (>92% Zn)  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B1100  | Metal-bearing wastes arising from melting, smelting and refining of metals:<br>• Zinc-containing drosses:<br>- Zinc die casting dross (>85% Zn)  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B1100  | Metal-bearing wastes arising from melting, smelting and refining of metals:<br>• Zinc-containing drosses:<br>- Hot dip galvanizers slab zinc dross (batch)(>92% Zn)  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B1100  | Metal-bearing wastes arising from melting, smelting and refining of metals:<br>• Zinc-containing drosses:<br>- Zinc skimmings  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited. Zinc skimmings that are flammable or emit, upon contact with water, more than 1 litre/kg/hour of flammable gases, are hazardous. Imports of such zinc skimmings as well as zinc skimmings containing less than 45 per cent of metallic zinc for recovery are controlled. |
| B1100  | Metal-bearing wastes arising from melting, smelting and refining of metals:<br>• Aluminium skimmings (or skims) excluding salt slag  |   |                          | X                   |                       | Aluminium skimmings that are flammable or emit, upon contact with water, more than 1 litre/kg/hour of flammable gases, are hazardous. Import for final disposal and for energy recovery is prohibited, other Import is controlled.  |
| B1100  | Metal-bearing wastes arising from melting, smelting and refining of metals:<br>• Slags from copper processing for further processing or refining not containing arsenic, lead or cadmium to an extent that they exhibit Annex III hazard characteristics |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B1100  | Metal-bearing wastes arising from melting, smelting and refining of metals:<br>• Wastes of refractory linings, including crucibles, originating from copper smelting   |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Not listed in the Green, Amber or Red Lists.   |
| B1100  | Metal-bearing wastes arising from melting, smelting and refining of metals:<br>• Slags from precious metals processing for further refining  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B1100  | Metal-bearing wastes arising from melting, smelting and refining of metals:<br>• Tantalum-bearing tin slags with less than 0.5% tin  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |

| 1. Annex IX of the Basel Convention (List B) |  | 2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention |                          |                     |                       | 3. Country: <b>Czech Republic</b>  |
|--|--|---|--------------------------|---------------------|-----------------------|--|
| 1.a Code                                     | 1.b Waste  | 2.a Art.1(1)b waste   | 2.b No control procedure | 2.c PIC - procedure | 2.d Import prohibited | 4. Comments and information  |
| B1110  | Electrical and electronic assemblies:<br>• Electronic assemblies consisting only of metals or alloys   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |
| B1110  | Electrical and electronic assemblies:<br>• Waste electrical and electronic assemblies or scrap (including printed circuit boards) not containing components such as accumulators and other batteries included on list A, mercury-switches, glass from cathode-ray tubes and other activated glass and PCB-capacitors, or not contaminated with Annex I constituents (e.g., cadmium, mercury, lead, polychlorinated biphenyl) or from which these have been removed, to an extent that they do not possess any of the characteristics contained in Annex III (note the related entry on list A A1180) |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited. Some catalysts (e.g. containing nickel) are considered hazardous. |
| B1110  | Electrical and electronic assemblies:<br>• Electrical and electronic assemblies (including printed circuit boards, electronic components and wires) destined for direct reuse, and not for recycling or final disposal   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |
| B1120  | Spent catalysts excluding liquids used as catalysts, containing any of:<br>Transition metals, excluding waste catalysts (spent catalysts, liquid used catalysts or other catalysts) on list A: Scandium, Titanium, Vanadium, Chromium, Manganese, Iron, Cobalt, Nickel, Copper, Zinc, Yttrium, Zirconium, Niobium, Molybdenum, Hafnium, Tantalum, Tungsten, Rhenium  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |
| B1120  | Spent catalysts excluding liquids used as catalysts, containing any of:<br>Lanthanides (rare earth metals): Lanthanum, Cerium, Praseodymium, Neodymium, Samarium, Europium, Gadolinium, Terbium, Dysprosium, Holmium, Erbium, Thulium, Ytterbium, Lutetium   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |
| B1130  | Cleaned spent precious-metal-bearing catalysts   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |
| B1140  | Precious-metal-bearing residues in solid form which contain traces of inorganic cyanides   |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Covered by Amber List entry AA150.                                |
| B1150  | Precious metals and alloy wastes (gold, silver, the platinum group, but not mercury) in a dispersible, non-liquid form with appropriate packaging and labelling  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |
| B1160  | Precious-metal ash from the incineration of printed circuit boards (note the related entry on list A A1150)  |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Covered by Amber List entry AA161.                                |
| B1170  | Precious-metal ash from the incineration of photographic film  |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Covered by Amber List entry AA162.                                |
| B1180  | Waste photographic film containing silver halides and metallic silver  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.   |

| 1. Annex IX of the Basel Convention (List B) |  | 2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention |                          |                     |                       | 3. Country: <b>Czech Republic</b>   |

| 1.a Code                                     | 1.b Waste  | 2.a Art.1(1)b waste   | 2.b No control procedure | 2.c PIC - procedure | 2.d Import prohibited | 4. Comments and information   |
| B1190  | Waste photographic paper containing silver halides and metallic silver   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B1200  | Granulated slag arising from the manufacture of iron and steel   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B1210  | Slag arising from the manufacture of iron and steel including slags as a source of TiO <sub>2</sub> and vanadium   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B1220  | Slag from zinc production, chemically stabilized, having a high iron content (above 20%) and processed according to industrial specifications (e.g., DIN 4301) mainly for construction |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Not listed in the Green, Amber or Red Lists. |
| B1230  | Mill scaling arising from the manufacture of iron and steel  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B1240  | Copper oxide mill-scale  |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Not listed in the Green, Amber or Red Lists. |
| <b>B2</b>                                    | <b>Wastes containing principally inorganic constituents, which may contain metals and organic materials</b>  |   |                          |                     |                       |   |
| B2010  | Wastes from mining operations in non-dispersible form:<br>• Natural graphite waste   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2010  | Wastes from mining operations in non-dispersible form:<br>• Slate waste, whether or not roughly trimmed or merely cut, by sawing or otherwise  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2010  | Wastes from mining operations in non-dispersible form:<br>• Mica waste   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2010  | Wastes from mining operations in non-dispersible form:<br>• Leucite, nepheline and nepheline syenite waste   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2010  | Wastes from mining operations in non-dispersible form:<br>• Feldspar waste   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2010  | Wastes from mining operations in non-dispersible form:<br>• Fluorspar waste  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2010  | Wastes from mining operations in non-dispersible form:<br>• Silica wastes in solid form excluding those used in foundry operations   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2020  | Glass waste in non-dispersible form:<br>• Cullet and other waste and scrap of glass except for glass from cathode-ray tubes and other activated glasses                                |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2030  | Ceramic wastes in non-dispersible form:<br>• Cermet wastes and scrap (metal ceramic composites)  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2030  | Ceramic wastes in non-dispersible form:<br>• Ceramic based fibres not elsewhere specified or included  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2040  | Other wastes containing principally inorganic constituents:<br>• Partially refined calcium sulphate produced from flue-gas desulphurization (FGD)                                      |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |

| 1. Annex IX of the Basel Convention (List B) |  | 2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention |                          |                     |                       | 3. Country: <b>Czech Republic</b>   |

| B2040  | Other wastes containing principally inorganic constituents:<br>• Waste gypsum wallboard or plasterboard arising from the demolition of buildings   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2040  | Other wastes containing principally inorganic constituents:<br>• Slag from copper production, chemically stabilized, having a high iron content (above 20%) and processed according to industrial specifications (e.g., DIN 4301 and DIN 8201) mainly for construction and abrasive applications |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2040  | Other wastes containing principally inorganic constituents:<br>• Sulphur in solid form   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2040  | Other wastes containing principally inorganic constituents:<br>• Limestone from the production of calcium cyanamide (having a pH less than 9)  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2040  | Other wastes containing principally inorganic constituents:<br>• Sodium, potassium, calcium chlorides  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2040  | Other wastes containing principally inorganic constituents:<br>• Carborundum (silicon carbide)   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2040  | Other wastes containing principally inorganic constituents:<br>• Broken concrete   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2040  | Other wastes containing principally inorganic constituents:<br>• Lithium-tantalum and lithium -niobium containing glass scraps   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2050  | Coal-fired power plant fly-ash, not included on list A (note the related entry on list A A2060)  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2060  | Spent activated carbon resulting from the treatment of potable water and processes of the food industry and vitamin production (note the related entry on list A A4160)  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2070  | Calcium fluoride sludge  |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Covered by Amber List entry AB050.             |
| B2080  | Waste gypsum arising from chemical industry processes not included on list A (note the related entry on list A A2040)  |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Covered by Amber List entry AB050.             |
| B2090  | Waste anode butts from steel or aluminium production made of petroleum coke or bitumen and cleaned to normal industry specifications (excluding anode butts from chlor alkali electrolyses and from metallurgical industry)  |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |
| B2100  | Waste hydrates of aluminium and waste alumina and residues from alumina production excluding such materials used for gas cleaning, flocculation or filtration processes  |   |                          | X                   |                       | Import for final disposal and for energy recovery is prohibited. Covered by Amber List entries AB090 and AB100. |
| B2110  | Bauxite residue ("red mud") (pH moderated to less than 11.5)   |   | X                        |                     |                       | Import for final disposal and for energy recovery is prohibited.  |

**GENERAL REMARKS**

In Finland, the wastes subject to control procedures when moved transboundary are defined by the Council Regulation (EEC) on the supervision and control of shipments of waste within, into and out of the European Community (259/93), and the regulations issued on the basis of the said regulation.

According to the aforementioned Regulation, all shipments of waste intended for final disposal (D-operations) are subject to control procedures. For wastes that are intended for recycling or recovery (R-operations) within the OECD area, the control is based on the waste lists defined in the OECD Council Decision C(92)39 (Green, Amber and Red lists of waste). All wastes listed in Annexes III (OECD Amber list of wastes) and IV (OECD Red list of wastes) of Council Regulation 259/93 as well as all wastes not listed in any of the OECD waste lists are subject to control procedures. Only wastes listed in Annex II of Council Regulation 259/93 are not subject to control when moved transboundary. Annex II of Council Regulation 259/93 is identical to the OECD Green list of wastes.

When waste is shipped to non-OECD countries (i.e. countries to which the OECD Council Decision C(92)39 does not apply) there are also some additional control procedures for non-hazardous, Green listed wastes. These control procedures vary depending on the request by the importing country concerned.

Please notice, that in cases where wastes mentioned in a certain entry of the Basel B list are partly classified as hazardous or controlled under domestic legislation, we have marked the appropriate tick box with (X). In case all the wastes covered by one B-list entry are controlled/not controlled, the appropriate box is ticked with X.

|       | Waste description  | 2a  | 2b  | 2c  | 2d | Comments   |
|-------|--|-----|-----|-----|----|--|
| B1    | METAL AND METAL-BEARING WASTES   |     |     |     |    |  |
| B1010 | Metal and metal-alloy wastes in metallic, non-dispersible form: Precious metals (gold, silver, the platinum group, but not mercury), Iron and steel scrap, Scrap of Cu, Ni, Al, Zn, Sn, Tu, Mo, Ta, Mg, Co, Bi, Ti, Zr, Mn, Ge, Va, Hf, In, Nb, Rh, Ga, Th |     | (X) | (X) |    | Metal and metal-alloy wastes mentioned in B1010 are not controlled, except Thorium (Th) which is controlled as a "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93)             |
| B1020 | Clean, uncontaminated metal scrap, including alloys, in bulk finished form (sheet, plate, beams, rods, etc), of: Antimony scrap, Beryllium scrap, Cadmium scrap, Lead scrap (but excluding lead-acid batteries), Selenium scrap, Tellurium scrap           |     | X   |     |    |  |
| B1030 | Refractory metals containing residues  |     | X   |     |    |  |
| B1040 | Scrap assemblies from electrical power generation not contaminated with lubricating oil, PCB or PCT to an extent to render them hazardous  |     | (X) | (X) |    | Not controlled if consisting only of metals and alloys; otherwise controlled as a "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93)  |
| B1050 | Mixed non-ferrous metal, heavy fraction scrap, not containing Annex I materials in concentrations sufficient to exhibit Annex III characteristics  |     |     | X   |    | Controlled as a "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93)  |
| B1060 | Waste selenium and tellurium in metallic elemental form including powder   | (X) | (X) | (X) |    | If in dispersible form (powder), controlled as Amber listed waste (AA 070) or as a "non-listed waste" in the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93; waste selenium in metallic elemental form is considered as a hazardous waste |
| B1070 | Waste of copper and copper alloys in dispersible form, unless they contain Annex I constituents to an extent that they exhibit Annex III characteristics   |     |     | X   |    | Controlled as Amber listed waste (AA 040) in the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93   |
| B1080 | Zinc ash and residues including zinc alloys residues in dispersible form unless containing Annex I constituents in concentration such as to exhibit Annex III characteristics or exhibiting hazard characteristic H4.3                                     |     |     | X   |    | Controlled as Amber listed waste (AA 020) in the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93   |
| B1090 | Waste batteries conforming to a specification, excluding those made with lead, cadmium or mercury  |     |     | X   |    | Controlled as Amber listed waste (AA 180) in the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93   |

| B1110 | Electrical and electronic assemblies  |     | (X) | (X) |    | Not controlled: electrical assemblies consisting only of metals and alloys or sorted electronic components which do not contain hazardous substances;<br>all other electric and electronic assemblies are controlled as a "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93)  |
| B1120 | Spent catalysts excluding liquids used as catalysts, containing any of: Transition metals, excluding waste catalysts on list A: Sc, Va, Mn, Co, Cu, Yt, Ni, Hf, Bi, Ti, Cr, Fe, Ni, Zn, Zr, Mo, Ta, Rh; Lanthanides: La, Pr, Sa, Gd, Dy, Er, Yb, Ci, Ne, E            | (X) | X   |     |    | Certain transition metal catalysts are considered as hazardous waste.  |
| B1130 | Cleaned spent precious-metal-bearing catalysts  |     | X   |     |    |  |
| B1140 | Precious-metal-bearing residues in solid form which contain traces of inorganic cyanides  | (X) |     | X   |    | Controlled as Amber listed waste (AA 150) in the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93   |
| B1150 | Precious metals and alloy wastes (gold, silver, the platinum group, but not mercury) in a dispersible, non-liquid form with appropriate packaging and labelling   |     | X   |     |    |  |
| B1160 | Precious-metal ash from the incineration of printed circuit boards (note the related entry on list A A1150)   |     |     | X   |    | Controlled as Amber listed waste (AA 161) in the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93   |
| B1170 | Precious-metal ash from the incineration of photographic film   |     |     | X   |    | Controlled as Amber listed waste (AA 162) in the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93   |
| B1180 | Waste photographic film containing silver halides and metallic silver   |     | X   |     |    |  |

|       | Waste description   | 2a | 2b | 2c  | 2d | Comments  |
|-------|---|----|----|-----|----|---|
| B1190 | Waste photographic paper containing silver halides and metallic silver  |    | X  |     |    |   |
| B1200 | Granulated slag arising from the manufacture of iron and steel  |    | X  |     |    |   |
| B1210 | Slag arising from the manufacture of iron and steel including slags as a source of TiO <sub>2</sub> and vanadium  |    | X  |     |    |   |
| B1220 | Slag from zinc production, chemically stabilized, having a high iron content (above 20%) and processed according to industrial specifications (e.g., DIN 4301) mainly for construction  |    |    | X   |    | Controlled as Amber listed waste (AA 020) in the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93                                  |
| B1230 | Mill scaling arising from the manufacture of iron and steel   |    | X  | (X) |    | Controlled as Amber listed waste (AA 010) in the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93 if exhibits hazardous properties |
| B1240 | Copper oxide mill-scale   |    | X  |     |    |   |
| B2    | WASTES CONTAINING PRINCIPALLY INORGANIC CONSTITUENTS, WHICH MAY CONTAIN METALS AND ORGANIC MATERIALS  |    |    |     |    |   |
| B2010 | Wastes from mining operations in non-dispersible form: Natural graphite waste, Slate waste, whether or not roughly trimmed or merely cut, by sawing or otherwise, Mica waste, Leucite, nepheline and nepheline syenite waste, Feldspar waste, Fluorspar waste ... |    | X  |     |    |   |
| B2020 | Glass waste in non-dispersible form: Cullet and other waste and scrap of glass except for glass from cathode-ray tubes and other activated glasses  |    | X  |     |    |   |
| B2030 | Ceramic wastes in non-dispersible form: Cermet wastes and scrap (metal ceramic composites), Ceramic based fibres not elsewhere specified or included  |    | X  |     |    |   |
| B2040 | Other wastes containing principally inorganic constituents: FGD, Waste gypsum wallboard or plasterboard, Slag from copper production mainly for construction and abrasive applications, Sulphur in solid form, Limestone from the production of calcium cy        |    | X  |     |    |   |
| B2050 | Coal-fired power plant fly-ash, not included on list A (note the related entry on list A A2060)   |    | X  |     |    |   |
| B2060 | Spent activated carbon resulting from the treatment of potable water and processes of the food industry and vitamin production (note the related entry on list A A4160)   |    | X  |     |    |   |
| B2070 | Calcium fluoride sludge   |    |    | X   |    | Controlled as Amber listed waste (AB 050) in the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93                                  |

|       | Waste description   | 2a  | 2b | 2c  | 2d | Comments   |
|-------|---|-----|----|-----|----|--|
| B2080 | Waste gypsum arising from chemical industry processes not included on list A (note the related entry on list A A2040)   |     |    | X   |    | Controlled as controlled as a "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93)  |
| B2090 | Waste anode butts from steel or aluminium production made of petroleum coke or bitumen and cleaned to normal industry specifications (excluding anode butts from chlor alkali electrolyses and from metallurgical industry) |     | X  |     |    |  |
| B2100 | Waste hydrates of aluminium and waste alumina and residues from alumina production excluding such materials used for gas cleaning, flocculation or filtration processes   | (X) |    | X   |    | Controlled as Amber listed waste (AB 090) in the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93   |
| B2110 | Bauxite residue ("red mud") (pH moderated to less than 11.5)  | (X) | X  |     |    | Controlled as Amber listed waste (AA 050) in the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93 if exhibits hazardous properties  |
| B2120 | Waste acidic or basic solutions with a pH greater than 2 and less than 11.5, which are not corrosive or otherwise hazardous (note the related entry on list A A4090)  | (X) |    | (X) |    | Controlled as Amber listed waste (AB 110 and AD 110) in the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93  |
| B3    | WASTES CONTAINING PRINCIPALLY ORGANIC CONSTITUENTS, WHICH MAY CONTAIN METALS AND INORGANIC MATERIALS  |     |    |     |    |  |
| B3010 | Solid plastic waste, provided they are not mixed with other wastes and are prepared to a specification (see list)   |     | X  | (X) |    | Controlled as "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93) if consignment contains different types of plastic waste mixed together (case dependent) |
| B3020 | Paper, paperboard and paper product wastes, provided they are not mixed with hazardous wastes:  |     | X  |     |    |  |
| B3030 | Textile wastes, provided they are not mixed with other wastes and are prepared to a specification (see list).   |     | X  | (X) |    | Controlled as "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93) if consignment contains different types of textile waste mixed together (case dependent) |
| B3040 | Rubber wastes, provided they are not mixed with other wastes: Waste and scrap of hard rubber (e.g., ebonite), Other rubber wastes (excluding such wastes specified elsewhere)   |     | X  | (X) |    | Controlled as "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93) if consignment contains different types of rubber waste mixed together (case dependent)  |
| B3050 | Untreated cork and wood waste: Wood waste and scrap, whether or not agglomerated in logs, briquettes, pellets or similar forms, Cork waste: crushed, granulated or ground cork  |     | X  | (X) |    | Controlled as "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93) if consignment contains untreated wood and cork waste mixed together (case dependent)    |
| B3060 | Wastes arising from agro-food industries provided it is not infectious  |     | X  |     |    |  |

|       | Waste description  | 2a  | 2b  | 2c  | 2d | Comments  |
|-------|--|-----|-----|-----|----|---|
| B3070 | Waste of human hair, Waste straw, Deactivated fungus mycelium from penicillin production to be used as animal feed   |     | X   | (X) |    | Controlled as "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93) if consignment contains different types of wastes mixed together (case-dependent)   |
| B3080 | Waste parings and scrap of rubber  |     | X   |     |    |   |
| B3090 | Paring and other wastes of leather or of composition leather not suitable for the manufacture of leather articles, excluding leather sludges, not containing hexavalent chromium compounds and biocides (note the related entry on list A A3100)           |     | X   |     |    |   |
| B3100 | Leather dust, ash, sludges or flours not containing hexavalent chromium compounds or biocides (note the related entry on list A A3090)   |     |     | X   |    | Controlled as Amber listed waste (AC 180) in the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93  |
| B3110 | Fellmongery wastes not containing hexavalent chromium compounds or biocides or infectious substances (note the related entry on list A A3110)  | (X) | (X) | X   |    | Controlled as "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93) if exhibits hazardous properties or if not in conformity with the specifications of the following waste entries in the OECD Green list: GN 010, GN 020, GN 030. |
| B3120 | Wastes consisting of food dyes   |     |     | X   |    | Controlled as "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93)   |
| B3130 | Waste polymer ethers and waste non-hazardous monomer ethers incapable of forming peroxides   |     |     | X   |    | Controlled as "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93)   |
| B3140 | Waste pneumatic tyres, excluding those destined for Annex IVA operations   |     | X   |     |    |   |
| B4    | WASTES WHICH MAY CONTAIN EITHER INORGANIC OR ORGANIC CONSTITUENTS  |     |     |     |    |   |
| B4010 | Wastes consisting mainly of water-based/latex paints, inks and hardened varnishes not containing organic solvents, heavy metals or biocides to an extent to render them hazardous (note the related entry on list A A4070)                                 | (X) |     | X   |    | Controlled as "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93)   |
| B4020 | Wastes from production, formulation and use of resins, latex, plasticizers, glues/adhesives, not listed on list A, free of solvents and other contaminants to an extent that they do not exhibit Annex III characteristics, e.g., water-based, or glues ba |     |     | X   |    | Controlled as "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93)   |

|       | <b>Waste description</b>                                       | <b>2a</b> | <b>2b</b> | <b>2c</b> | <b>2d</b> | <b>Comments</b>   |
|-------|--|-----------|-----------|-----------|-----------|---|
| B4030 | Used single-use cameras, with batteries not included on list A |           |           | X         |           | Controlled as "non-listed waste" (i.e. a waste not mentioned in any of the waste lists of OECD Decision C(92)39 and EEC Waste Shipment Regulation 259/93) |

Questionnaire

Cover sheet - general information:

-&gt; Please fill in the following:

| .....  |  |   |                          |                     |                       |                             |

| 1. Annex IX of the Basel Convention (List B) |   | 2. National classification and control procedure for the import of wastes listed in Annex IX (list B) of the Basel Convention |                          |                     |                       | 3. Country: .....  |
|--|---|---|--------------------------|---------------------|-----------------------|--|
| 1.a Code                                     | 1.b Waste   | 2.a Art. 1(1)b waste  | 2.b No control procedure | 2.c PIC - Procedure | 2.d Import prohibited | 4. Comments and information  |
| B4020  | wastes from production, formulation and use of resins, latex, plasticizers, glues/adhesives, not listed on list A, free of solvents and other contaminants to an extent that they do not exhibit Annex III characteristics, e.g. water based, or glues based on casein starch, dextrin, cellulose ethers, polyvinyl alcohols (note the related entry on List A A3050) |   |                          |                     |                       |  |
| B4030  | Used single use cameras, with batteries not included on list A  |   |                          | X                   |                       | A customs tariff code applies to all waste batteries and accumulators for import. When a customs officer identifies waste batteries, the shipment is checked against Annex VIII and IX of the Basel Convention to determine if the wastes are hazardous and requires an import permit. |

Note: The questions are voluntary and Parties have the full freedom to respond to all, to some or to none of the questions.
