**NOTE**

National definition of hazardous waste is in accordance with the Annexes I and II of the Basel convention, and our regulation are based on the list of Basel Convention (Annex VIII and Annex IX). The most important current document on the state level in Republic of Croatia is Waste Catalogue which is similar with the European List of Waste. In the future the Republic of Croatia will change Waste Catalogue and make new one which will be same as European.

**Croatia restricts the import of hazardous wastes and other wastes for final disposal by the orders of the Articles 38. and 39. of the Law on Waste , Official Gazzete, No. 34/95 as follows:**

**Article 38.**

- (1) The import of waste for disposal is prohibited.
- (2) The import of hazardous waste is prohibited.
- (3) The import of waste that can be treated in an environmentally sound manner, except the waste to be used for energy recovery, is permitted.

**Article 39.**

(1) The import of waste is permitted providing the following conditions are met:

- a contract has been signed between the exporter and importer of waste,
- a contract has been signed between the importer of waste and the waste treatment utility,
- the exporter of waste has submitted a statement concerning the type, quantity, composition of waste, place of its origin, generation technology, and the reasons for its export,
- the waste treatment utility can prove to dispose of the equipment for environmentally sound waste treatment,
- a statement has been enclosed specifying the type of waste to be generated by treatment of imported waste, and the manner of its disposal,
- a statement has been enclosed confirming the imported waste shall not be used for energy recovery,
- the data concerning the waste identification number, mode of transportation, place of waste entry in case of the waste import, waste arrival time at the frontier crossing have been stated.

**Article 40.**

(1) A decision on the waste import under the Article 39 hereof is issued by the Ministry for the Environment and Physical Planning preceded by the opinion of the Ministry of Economy.

(2) No appeal is permitted against the decision under the paragraph 1 of this Article, but an administrative lawsuit can be instituted.
