

Partnership for Action on Computing Equipment

GLOSSARY OF TERMS

Background:

The Partnership for Action on Computing Equipment (PACE) was launched by the ninth meeting of the Conference of the Parties to the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and their Disposal, which took place in Bali, Indonesia in June 2008. PACE is a multi-stakeholder public-private partnership under the umbrella of the Basel Convention that provides a forum for representatives of personal computer manufacturers, recyclers, international organizations, associations, academia, environmental groups and governments to tackle environmentally sound refurbishment, repair, material recovery, recycling and disposal of used and end-of-life computing equipment. The Partnership is intended to increase the environmentally sound management of used and end-of-life computing equipment, taking into account, amongst other things, social responsibility, the concept of sustainable development, and information-sharing on life cycle thinking.

For the purpose of PACE, computing equipment is defined as: PCs and associated displays, printers and peripherals; personal desktop computers, including their central processing units (CPUs) and all other parts contained in them; personal notebooks and laptop computers, including docking stations, CPUs and all other parts contained in the computers; computer monitors, including cathode ray tube, liquid crystal display and plasma monitors; computer keyboards, mice and cables; computer printers, including dot matrix, inkjet, laser and thermal printers and any computer printer with scanning or facsimile capabilities, or both.

The glossary of terms was developed for the purpose of PACE reports, guidelines and the overall guidance document so that readers better understand these approved PACE products. The terms in this glossary should not be considered as being legally binding.

The Glossary of Terms is available from the Secretariat of the Basel Convention (<http://www.basel.int/industry/compartnership/documents.html>).
