<i>Source</i> 2008	At present there are no authorized organizations for disposal of hazardous waste. But negotiations are being conducted. However, the Cabinet approval has been granted to seek private sector partnerships in management of hazardous waste in Sri Lanka. Preliminary arrangements are being carried out to establish a hazardous waste management facility in Sri Lanka. Industrialists treat their own waste under the Environmental Protection License. On the other hand industrialists are compelled to operate their own waste treatment plants.

Remarks 2008 The problem is that a complete list of facilities is not available. Information of several sources should be gathered and grouped, without knowing if these sources are complete. Information will contain facilities that dispose and/or recover waste. It will not be a list of just disposal facilities.
