---

**Canada**

- 2008 In addition to those requirements listed under Annex VA, the following are a list of additional requirements:
- For those disposal and recovery operations D13, D14, R12 or R13 (as listed in Annex IV), the final destination authorized facility, and the final disposal or recycling operation(s) to be carried out at that facility needs to be identified, as well as complete contact information needs to be provided;
  - Customs border crossings and offices must be identified;
  - In addition to the disposal and recovery operations set out in Annex IV, under the EIHWHMR additional codes D16, D17, R14, R15 and R16 are controlled, and require notification; and
  - The License or Permit No. from the Province or Country must be identified for both the exporter and receiver.
- [Note: Annex IV, D15 entry – Storage pending any of the operations in Section A is actually D17 in Canada under the EIHWHMR, while the D15 operation in Canada represents “release, including the venting of compressed or liquefied gases, or treatment, other than by any of operations D1 to D12”.]

In addition to those requirements listed under Annex V B, the following is a list of additional requirements:

- Any shipment discrepancies or returns must be identified [separate return provisions must be complied with];
- Customs border crossings and offices must be identified; and
- The registration number, or license from the Province or Country must be identified

---

## **Denmark**

- 2008 Information asked for in EU Regulation 1013/2006 annex II part 2.

---

## **Finland**

- 2008 Waste classification in accordance with the European Community legislation;  
Copy of the contract between notifier and consignee; the contract must fulfill the obligations of the Regulation (EC) No 1013/2006 of the European Parliament and of the Council;  
Information on the financial guarantee to be lodged in favor of the competent authority;  
When waste is imported for final disposal from countries that are not Members of the European Union an official request is required from the country of export, stating that it does not have or can not reasonably acquire the necessary technical capacity to dispose of the waste in an environmentally sound manner; and  
When waste is imported or exported to disposal operations D13, D 14 or D15 or to recovery operations R12 or R13 the information provided by the notifier shall also include information on the actual facility performing the final disposal operations D1-12

---

## **Germany**

- 2008
- If the waste is destined for an interim recovery or disposal operation, information regarding all facilities where subsequent interim and non-interim recovery or disposal operations are envisaged shall be indicated (Annex II Part 1 No. 5 of the new Waste Shipment Regulation).
  - Evidence of registration of the carrier(s) regarding waste transports (Annex II Part 1, No. 15 of the new Waste Shipment Regulation)
  - If the waste is destined for recovery: (Annex II Part 1 No. 20 of the new waste shipment regulation)
    - oThe planned method of disposal for the non-recoverable fraction after recovery
    - oThe amount of recovered material in relation to non-recoverable waste
    - oThe estimated value of recovered material
    - oThe cost of recovery and the cost of disposal of the non-recoverable fraction
  - Evidence of a financial guarantee or equivalent insurance for the costs of repatriation (Annex II Part 1 No. 24 of the new Waste Shipment Regulation) Any other pertinent information may be requested by the competent authorities according to Annex II Part 3

2008 In addition to the requirements listed in Annex V (A and B) of the Basel Convention, a Contingency Plan is required from the exporter, who must present a risk profile. This plan is necessary in order to determinate the activities carried out by the exporter from the point where the wastes are loaded to the exit port, in order to be prepared for an emergency.

Also an insurance policy or financial cover is required to cover any environmental damage that could occur during the transportation of hazardous wastes.

In addition to this, an environmental impact assessment (EIA) must be undertaken by the importer of hazardous wastes, as a prerequisite to obtain the environmental license from the Ministry of Environment, Housing and Territorial Development of Colombia, according to the National law 99 of 1993.

In the cases where the exporter requires temporary waste storage, he must previously obtain Environmental Licensing for such storage, in accordance with the dispositions set
