Dear Joost and Susan,

I am sorry for being late to send the Information in Asian Countries.

1. Japan

(1) Big home appliances : Recycling fee is paid by consumer, when the disposed big home appliances. The recycling fee is collected through retailer, and trasered to manufacturer. Manufacturer has responsibility to recycle discarded big home appliances.

<http://www.env.go.jp/en/press/2005/1027a.html>

(2) Packaging and container : Manufacturer of packaging and container and manufacturer using package atn container have responsibility to recycle. Most of manufacturer pay recycling fee to disgnated organization.

<http://www.jcpa.or.jp/english/tabid/614/index.php>

(3) Automobile recycling : Consumer should pay recycling fee in advance. The recycling fee is managed by association of manufacturer and distributed to proper treatment of specific items, which CFCs, air bags and automobile shredder dust.

<http://www.jarc.or.jp/en/recycling/>

2. India for e-waste (ongoing), and Vietnam for e-waste, automobile, rublicant, battery and others(preparation stage)

They only emphasis physical responsibility. Financial scheme is not defined in the regulation. Manufacturers bear the cost to satisfy the physical responsibility.

3. China onr e-waste

Chinised government collect recycling fee from manufacturers. Government distribute the fund to recycling companies.

See you soon.

Michikazu Kojima

Dear Members & Observers,

First of all, I would like to wish you all a Happy New Year and best wishes for 2017!

#### **Sixth meeting of expert working group**

With EWG6 fast approaching next week, work has been underway to finalize the meeting documents – many of which have been developed taking into account comments received from Parties and others up to 31 December 2016.

The meeting documents can be accessed via the EWG6 meeting page as follows:

<http://www.basel.int/Implementation/CountryLedInitiative/Meetings/EWG6onESM/Overview/tabid/5356/Default.aspx>

In addition, a Members Area has been set up for the meeting. The particulars of this are:

<http://www.basel.int/Implementation/CountryLedInitiative/Meetings/EWG6onESM/EWG6MembersArea/Overview/tabid/5358/Default.aspx>

(accessible from the EWG6 meeting page)

Username: EWG.6

### EPR examples

As a second item of business, I have a request from the Chair of the small group on EPR (Joost Meijer): could colleagues please gather at least **one example of EPR at work** in their or a neighboring country – and if possible, bring these examples with them to the meeting next week (or email them to Joost and myself). Additionally, **any examples of financing systems for ESM at work** would be useful. Parties and others commenting on the draft manuals saw the need for more practical examples as crucial.

Thank you very much for your kind cooperation, and we look forward to seeing many of you in Mechelen next week.

Best regards,  
Susan
