

Model workshop for economic operators in ESM of used and waste mobile phones, computing equipment and E-waste

Programme

DAY 1		
	Registration	
	Welcome	
Morning session	Opening remarks	
	Objectives of the workshop and participants' introduction	
	<i>Group Photo & Coffee Break</i>	
Session 1: Introduction to the issue of waste electrical and electronic equipment (e-waste)		
Morning session	The global issue of e-waste	
	Challenges and opportunities (human and environmental impact of e-waste) for the environmentally sound management (ESM) of e-waste in the specific regional context	
	Data on global and regional e-waste generation, trends in collection, recycling and final disposal of e-waste in the regional context	
	Addressing e-waste issues in the Basel Convention, overview of legislation and regulations of e-waste in the specific regional context -POPs in e-waste - Plastics in e-waste	

	Questions and answers	
	<i>Lunch</i>	
Session 2: Environmentally sound management of e-waste: collection, repair and refurbishment		
Afternoon session	Environmentally Sound Management under the Basel Convention Introduction of PACE and MPPI guidance on collection repair and refurbishment of computing equipment and mobile phones	
	Questions and answers	
	<i>Coffee Break</i>	
Afternoon session	Case studies on collection, repair and refurbishment from the national and regional context	
	Questions and answers	
Session 3: Transboundary Movements (TBM) of Used Electric and Electronic Equipment (UEEE) and E-wastes under the Basel Convention		
	Basel Convention provisions on transboundary movements of hazardous and other wastes Technical guidelines on transboundary movements of electrical and electronic waste and used electrical and electronic equipment, in particular regarding the distinction between waste and non-waste under the Basel Convention E-waste TBM Guidelines on the distinction between waste and non-waste Exercise	
	Questions and answers	
	Wrap up of day 1	
END OF DAY 1		

DAY 2

Session 4: Environmentally sound management of e-waste: recycling and material recovery

Morning session

Environmentally sound material recovery and recycling of e-waste and used electrical and electronic equipment

Introduction of PACE and MPPI guidance documents on material recovery and recycling

Case study the role of the informal sector

Lunch

Session 5: Policies and financial systems for the ESM of e-waste

Afternoon session

Extended Producer Responsibility policy schemes
Case studies

Certification schemes for e-waste recycling facilities
Case studies

Policies for the inclusion of the informal collectors and recyclers

Case studies

Wrap up of day 2

END OF DAY 2

DAY 3

Continuation of Session 5: Policies and financial systems for the ESM of e-waste

Morning session

Classification and labelling in road, air and ship transport of e-waste

Cost and benefit analysis of e-waste trade

Influence of secondary material global prices on the ESM of e-waste

Case studies from different economic operators

Session 6: Environmentally sound management of e-waste: site visit

Session 7: Needs, challenges and opportunities for the environmentally sound management of e-waste for economic operators

Morning session

Challenges and opportunities for the ESM of e-waste for economic operators in the ESM sector: collection, repair, refurbishment, recycling and final disposal (open discussion)

Lunch

Afternoon session

Conclusions and recommendations

END OF DAY 3 CLOSURE OF THE WORKSHOP
