

SCIENCE FAIR

SCIENCE EMPOWERING THE PUBLIC: HOW ARE WE PERSONALLY AFFECTED AND WHAT CAN WE DO?

The booth communicates on the main pathways of exposure to chemicals affecting us all, through the air we breathe, the water we drink, the food we consume, and the products we use in everyday life.

PRESENTATIONS available in this booth:

- GENASIS information database (RECETOX)
- Sustainability practices in the BRS Secretariat

QUIZ/online tools:

- Online body burden assessment/quiz
- Mobile apps with information on chemicals in consumer goods

PARTNERS involved in developing the material displayed in this booth: BRS Secretariat, Exxpedition, IPEN, RECETOX, SafePlanet, UNEP Chemicals, University of Geneva

VIDEOS:

- Body burden (SafePlanet)
- 5 Gyres expedition in the Atlantic (SafePlanet)
- Exxpedition voyage
- Persistent organic pollutants (IPEN)
- Little things matter (IPEN)
- Greening the Blue (SUN)

Booth events:

- Presentation of the Exxpedition voyage**, Emily Penn and Lucy Gilliam, Exxpedition team, Thursday 7 May 18:00
- Monitoring recycled BFRs in new products**, IPEN, Friday 8 May, 13:00
- Dialogue on sustainability practices across organizations**, BRS Sustainability team, Friday 8 May, 18:00
- Raising public awareness to water quality - a series of laboratory experiments to assess water quality**, Chimiscope, University of Geneva, Saturday 9 May, 13:00
