

**TABLE 1a: TOTAL AMOUNT OF HAZARDOUS WASTES GENERATED IN 2007
(as reported by Parties)**

Figures are rounded to the nearest integer

Party	Quantity (metric tons)		
	BC Article 1 (1)(a) wastes* (Annex I: Y1-Y45)	BC Article 1 (1)(a) wastes*	Total
Albania	12'002'625		12'002'625
Andorra	866		866 ²⁾
Australia	1'117'184		1'117'184
Austria	990'276		990'276 ³⁾
Azerbaijan	10'400		10'400 ⁴⁾
Bahrain	35'008		35'008
Belarus	139'841	2'860'000	2'999'841
Bosnia & Herzegovina	4'981		4'981 ⁵⁾
Brazil	1'420		1'420 ⁶⁾
Bulgaria	816'767		816'767
China	10'790'000		10'790'000 ⁷⁾
Cuba	1'417'308		1'417'308
Cyprus	38'097		38'097 ⁹⁾
Czech Republic	1'733'164		1'733'164 ⁸⁾
Denmark	239'917	288'631	528'548
Dominican Republic	16'398		16'398 ¹⁰⁾
Egypt	450'000		450'000 ¹¹⁾
Estonia	8'617'851	389'792	9'007'643 ¹⁾
Greece			333'155 ¹²⁾
Guyana	742		742
Hungary	785'364	785'364	1'570'728 ¹³⁾
Iran (Islamic Republic of)	36'600'000		36'600'000 ¹⁴⁾
Ireland	493'068		493'068 ¹⁵⁾
Israel	294'306		294'306
Kazakhstan	146'111'000		146'111'000 ¹⁶⁾
Latvia	31'562		31'562
Lithuania	118'912		118'912
Luxembourg	124'131		124'131
Malaysia	411'160	727'679	1'138'839
Malta	1'782	53'499	55'281
Mexico	45'401	160'295	205'696
Moldova	6'501		6'501
Monaco	584		584 ¹⁷⁾
Morocco	150'000		150'000 ¹⁸⁾
Mozambique	341'768		341'768
Norway	1'017'000		1'017'000
Panama	2'400		2'400
Poland	1'204'183		1'204'183
Portugal	1'763'478	1'048'135	2'811'613
Qatar	9'471		9'471
Romania	1'100'000		1'100'000 ¹⁹⁾
Saint Lucia	82		82 ²⁰⁾
Senegal	268		268
Serbia	1'710		1'710 ²¹⁾

Party	Quantity (metric tons)		
	BC Article 1 (1)(a) wastes* (Annex I: Y1-Y45)	BC Article 1 (1)(a) wastes*	Total
Singapore	491'000		491'000
Slovakia	557'440		557'440 ²²
Slovenia	96'885		96'885
Spain	3'143'407		3'143'407 ²³
Ukraine	2'585'200		2'585'200 ²⁴
United Kingdom			7'081'726 ²⁵
Zambia	9'572		9'572 ²⁶
Totals	235'920'480	6'313'395	249'648'756

1) Andorra

For other wastes generated (Annex II: Y46 and Y47), this is the estimated amount.

2) Austria

- 1) Total amount of hazardous wastes generated under Art. 1 (1)b: n.a.
- 2) Y46 (municipal wastes including bulky wastes): 1,639,000 t. "Municipal wastes" means wastes collected from households and small shops. Detailed information is contained in the Federal Waste Management Plan edited in 1992, 19995, 1998, 2001, 2006 and is available via the Focal Point.

3) Azerbaijan

Municipal wastes: 7,800,000 m3.

4) Bosnia & Herzegovina

Estimated amount.

5) Brazil

- 1) In addition, 75 m3 of spent rhodium catalyst were generated.
- 2) No data.

6) China

- 1) Total amount of hazardous wastes under Art.1(1)a above only includes the data of mainland of China. No data on the total amount of hazardous wastes under Art.1(1)b generated in China.
- 2) Total amount of other wastes generated only includes the data of the Macao Special Administrative Region of P. R. China. There is no data for other regions of China.

7) Cyprus

Estimated amount. In addition, 112,553 m3 were generated.

8) Czech Republic

Total amounts of hazardous wastes generated consist of hazardous wastes under Art. 1 (1)a (Annex I: Y1-Y45) + hazardous wastes under Art. 1 (1)b.

9) Dominican Republic

For other wastes generated, no data is available.

10) Egypt

Estimated amount.

11) Estonia

By Estonian Law there is no data collection according to Y-codes. Data collected according to the European waste catalogue.

12) Greece

Figure refers to total amount of hazardous industrial wastes generated under Art. 1(1) a and 1(1)b.

13) Hungary

According to the Hungarian Legislation, residues arising from the incineration of household wastes (Y47) are hazardous wastes. Therefore, these wastes are included in both the total amount of hazardous wastes under Art. 1 (1)b generated and the total amount of other wastes generated (Annex II: Y46-Y47)

14) Iran (Islamic Republic of)

- 1) Estimated amount. No data on the total amount of hazardous wastes generated under Art.1(1)b.
- 2) Estimated amount. No data on the generation of Y47.

15) Ireland

Data from National Wastes Reports.

16) Kazakhstan

- 1) Total amount of hazardous wastes generated under Art. 1 (1)b: no data.
- 2) No data on the generation of Y47. In addition: 3,781,000 metric tons - these are other wastes brought together to authorized dumps and grounds in 2007, i.e., Solid domestic wastes.

17) Monaco

Y46 category results from the sum of : wastes from households in Monaco + selective collect of glass, papers and iron scraps+ wastewater treatment sludge. Households wastes from Monaco and those coming from France and Italy (no import from Italy since 2003) are immediately incinerated becoming the Y47 category.

18) Morocco

Estimated amount.

19) Romania

Preliminary data.

20) Saint Lucia

- 1) In addition, approximately 75 m3 of used oil were generated.
- 2) For other wastes, no data is available.

21) Serbia

Amount based on waste designated for export.

22) Slovakia

Total amount of hazardous wastes generated under Art. 1 (1)b includes Y47. The EWC was used for reporting.

23) Spain

- 1) Figure refers to total amount of hazardous industrial wastes generated (excluding wastes from mining activities and from mineral processing activities). Source: Autonomous Communities data.
- 2) Figure refers to total amount of municipal wastes collected from households (Y46), but also includes commercial and service sectors when collected by municipalities.

24) Ukraine

Until now the forms of statistic accounting on wastes and wastes nomenclature in Ukraine are not in accordance with the Basel Convention List. The figures filled in the table 8A attributes to the hazardous wastes of I-III classes of hazard (toxicity) in accordance with the Ukrainian classification.

25) United Kingdom

Estimated amount. This data is based on the new Hazardous Waste regime, with increased types of hazardous waste and are not directly comparable with earlier years. The estimate of hazardous waste arisings in the UK is taken from data collected under the Special Waste Regulations 1996 (as amended) and the Special Waste Regulations (Northern Ireland) 1998. Under these Regulations all domestic movements of 'special waste' are tracked by consignment notes. The definition of hazardous waste for domestic movement used within these Regulations is derived from EC Directive 91/689/EC on hazardous waste and Decision 94/904 EC, which sets out an EC hazardous waste list Article 1(4) of the 1991 Directive allows EC Member States to go beyond EC hazardous waste lists. The UK has taken up this option through setting out criteria by which waste, not on the hazardous waste list but possessing one or more of a limited number of hazardous waste properties, is also recorded as hazardous. The figures are only estimates as hazardous waste arisings may be double-counted if they are subject to more than one movement. There will also be hazardous waste arisings on-site which do not need to be tracked and are thus not included in the data.

26) Zambia

- 1) Estimated amount. The figures cover major waste types, the value will be higher when other waste types are considered. The information provided is an estimate from the industrial returns.
- 2) Estimated amount.

EndNotes

Belgium

Data not yet available.

Belize

No data.

Cambodia

No data.

Croatia

At the beginning of 2008 the new Ordinance on the environmental pollution register came into force with the new way of data collection. As there were some problems with the implementation of the new Ordinance, the data processing is late.

Finland

Data not yet available.

Germany**Guatemala**

No data.

Indonesia

National hazardous waste data is not transferable into classification of hazardous waste as defined by the Basel Convention. For this reason, total generation of hazardous waste and other waste is not available.

Jamaica

Information related to the total amount of hazardous wastes generated from 1996 - 2007 is not available. The country is however working on mechanisms to accurately capture this information.

Japan

Amounts of generation of hazardous wastes under Art.1(1)a are not available as Japan's waste classification system for the internal waste control is different from those of Basel Convention. Total amount of hazardous wastes generated under Art. 1 (1)b: 0.

Madagascar

No data.

Montenegro

No data.

Netherlands

Data not yet available.

Pakistan

No data.

Thailand

No data.

Trinidad and Tobago

No data.

Tunisia

1) No data on Art 1(1)a (Annex I: Y1-Y45).

2) Estimated amount. There are no incinerators in Tunisia and the incineration of household wastes in non-authorized facilities is strictly prohibited by law no. 96-41 of 10 June 1996 on Wastes and the Control of their Management and Disposal.

Uruguay

No data.

Venezuela

No data.

Viet Nam

No data.
