10.2009	NO – DE (Ghana)	Mixed goods		Non-functional objects, ODS/WEEE	Returned to sender
08.2009	NO – DE (Nigeria)	Truck (ELV)		End-of-product	Take-back or recovery in situ
07.2009	NO – DE (Nigeria)	Car (ELV), car parts		End-of-product, mixed waste	Recovery in transit recommended

<i>Incident date</i>	<i>Countries</i>	<i>Waste</i>	<i>Amount</i>	<i>Reason</i>	<i>Measures</i>
04.2009 (2)	NO – DE (Nigeria)	Truck (ELV) and car		End-of-product, car parts as waste	Recovery in transit
09.2009	Norway – Poland	Car batteries		No notification presented	Take-back accepted, not resolved
02.2009	NO – DE (Nigeria)	Truck (ELV), loaded		End-of-product, bad spare parts	Recovery, but boat left for Africa
04.2009	NO – BE (France)	Al skimmings/skims		Not notified as Amber waste	Notification (done later)

Remarks 2009 Amounts of the different objects, considered as waste, have not been registered or are uncertain.

Transit shipment cases only are selected and shown, with the exception of the case with Poland. The number of illegal transit cases have been slightly reduced compared to the two previous years, probably due to the border enforcement actions done in Norway in 2009, in cooperation with the customs. Inspections of stopped shipments amounted to 70 incidents, and of these about 30 showed some kind of deviation from set conditions (illegality).

Minor cases are not included here, dealing with e.g. waste versus non-waste, green coding or not, and particular conditions in consents.
