---

Dear Yorg and Leila,

Please see below some comments on the draft prevention guidance received from China.

Best regards,

Yvonne

Subject: RE: Request for Comments: Draft Guidance Developed by the Expert Working Group on Environmentally Sound Management

Dear Secretariat,

China appreciates the great work that the secretariat and the Environmental Working Group have done on the prevention minimization and recovery of hazardous wastes and other wastes. We noticed that the Basel Convention has been extending the management scope from only hazardous waste and some specific kinds of other wastes to many other wastes, which is significant positive under the status. 中国赞赏秘书处和环境无害化工作组在危险废物和其他废物中所作的显著工作。我们也注意到, 巴塞爾公約的管控範圍正在從僅僅是危險廢物和一些特定的非危險廢物, 擴展到其他廢物。這在當前形勢下具有十分積極的意義。

Recycle is emphasized under the situation of circular economy, but we also notice the risk to environmental and human health if not control appropriate. Especially when recycling hazardous waste, how to make criteria for the procedure and the product is always bother us. So we would like to propose to add some chapters on the hazardous waste recycle in the guidance, especially some guild on the limits of poisonous and harmful ingredients contention in the product when recycling hazardous waste.

在循環經濟的當前形勢下, 循環利用被重視。但是我們也注意到如果控制不當對環境和人體健康帶來的風險。尤其是在危險廢物再利用過程中, 如何確定其製造過程和產品中的標準經常困擾我們。所以, 我們提出增加危險廢物回收指導方面的章節, 尤其是在回收危險廢物過程中和產品中在有毒有害物質含量方面

的指导。

--

Best regards
